VARIETIES AND TYPES

for

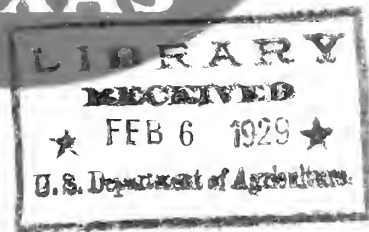

COMMERCIAL GROWERS

of

VEGETABLES AND FLOWERS

SEASON 1929

**PALM
SEED
COMPANY**
**EL PASO
TEXAS**

ZINNIAS

Our experience in growing Zinnias for the market has taught us that Zinnias can not be grown in light sandy soil, deficient in plant food. The Zinnia does best in a heavy soil, one holding moisture and rich in plant food.

The best types to plant for cut flowers are the Dahlia Flowered Zinnias and the California Giants. The best colors in the Dahlia Flowered Zinnias are Exquisite, Crimson Monarch, Oriole, Purple Prince, Buttercup and Golden State. The best colors in the California Giants are Miss Willmott, Rose Queen, Enchantress and Scarlet Gem.

DAHLIA FLOWERED ZINNIAS (Separate Colors) Packet 20c—3 Packets 55c— $\frac{1}{4}$ ounce 75c—1 ounce \$2.75.

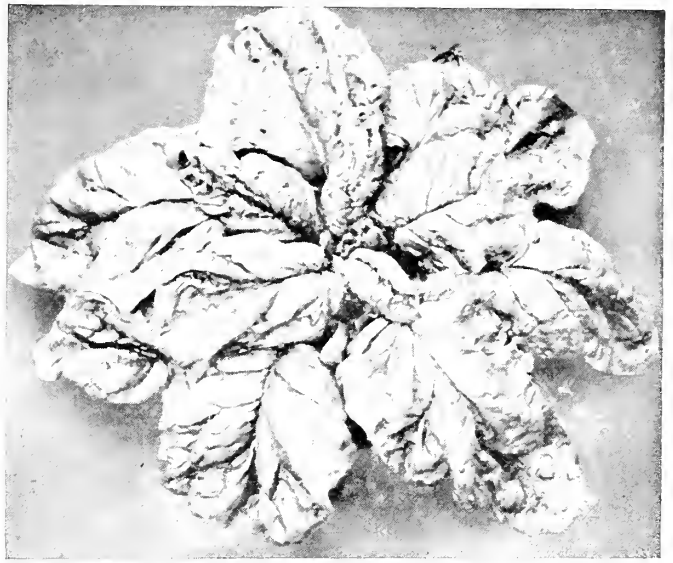

DAHLIA FLOWERED ZINNIAS (Gold Medal Mixture), Packet 15c—2 Packets 25c— $\frac{1}{4}$ ounce 55c— $\frac{1}{2}$ ounce \$1.00—1 ounce \$1.75.

CALIFORNIA GIANTS (Separate Colors or Finest Mixed), Packet 10c—3 Packets 25c— $\frac{1}{4}$ ounce 45c— $\frac{1}{2}$ ounce 75c—1 ounce \$1.25.

GIANT LEAVED SPINACH

A splendid new introduction that produces much larger leaves than the Viroflay. This Spinach is bi-sexual and stands in the field a long time before going to seed. Giant Leaved Spinach will fill a basket quicker than any other variety we know of. The leaves are very large, broad, and thick. Packet 10c—1 ounce 15c— $\frac{1}{4}$ pound 25c—1 pound 60c—5 pounds \$2.75; postpaid. Not prepaid. 10 pound lots and over, 35c per pound.

CHANTENAY CARROT

This type of Carrot is without question the most popular with the commercial growers. It is a splendid bunching sort, the tops are medium sized and the neck is small. The matured roots are thick, 5 to 6 inches in length, uniformly half long or stump rooted and very smooth. The color is deep orange-red, the flesh is very crisp and tender. The stock that we offer has been bought from the same growers for the past 10 years, and we have hundreds of letters complimenting us on the fine quality of our Chantenay.

Packet 10c—1 ounce 15c— $\frac{1}{4}$ pound 30c—1 pound \$1.00—5 pounds \$4.50, postpaid. Not prepaid, 10 pound lots and over 75c per pound

A NEW DEPARTURE

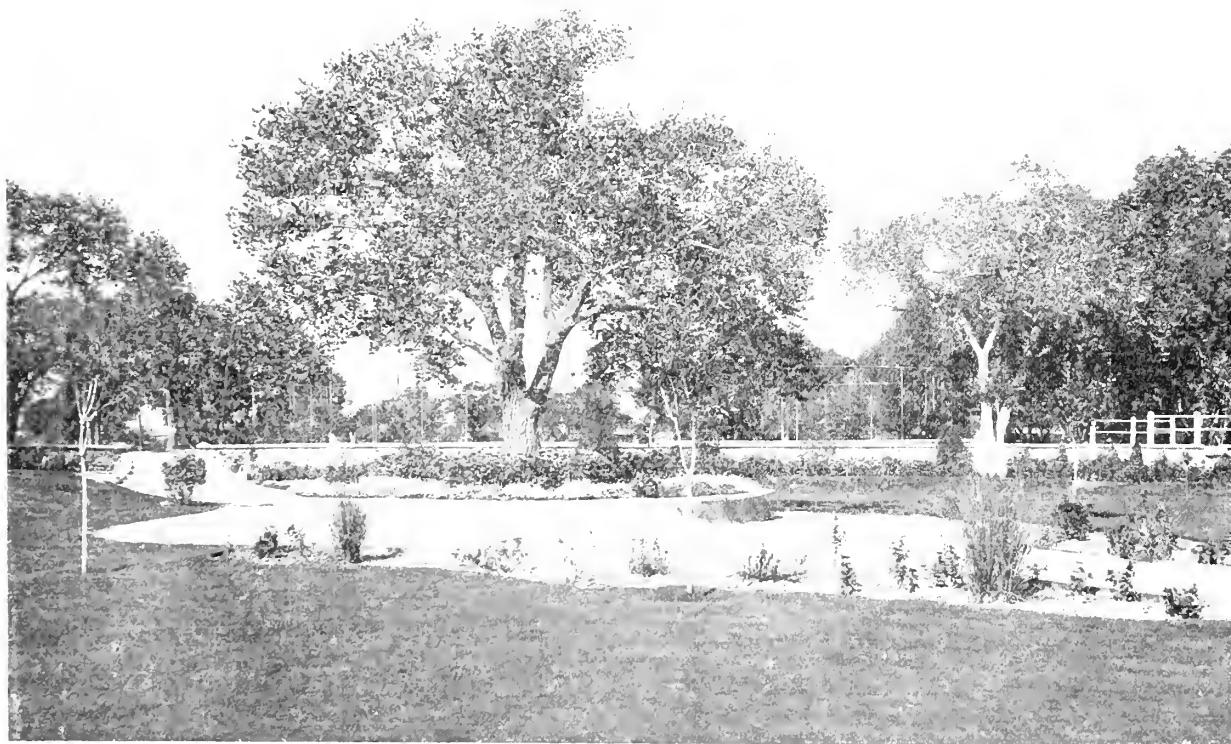

You will note a new departure in our 1929 catalog. The list of VEGETABLE SEEDS is limited to such varieties as are planted by COMMERCIAL GROWERS. The varieties that the MARKET GARDNERS plant are the best varieties for you to plant.

The FLOWER SEED section of our catalog will be issued in the future in two separate pamphlets. The January issue will deal only with SUMMER FLOWERS which should be called TENDER ANNUALS. The August issue will deal with SPRING FLOWERS which should be called HARDY ANNUALS.

Spring is the time to enjoy the FLOWERS planted in the Fall of the year and to make plans for the FLOWERS that bloom in the SUMMER AND FALL.

PLANT THE BEST SEED YOU CAN BUY — FERTILIZE, WATER AND CULTIVATE — THE GROWING OF FLOWERS AND VEGETABLES WILL THEN BE A PLEASURE.

We sell the best Seed we can buy. All of our Seeds are bought from seed growers with national reputations for producing excellent types. Seeds, Bulbs and Plants are subject to many conditions over which we have no control — therefore, The O. H. PALM SEED COMPANY gives no warranty, express or implied, as to the description, quality, productiveness or any other matter pertaining to any Seeds, Bulbs and Plants they may send out and will not in any way be responsible for the crop. If the purchaser does not wish to accept the Seeds, Bulbs and Plants on these terms they are to be returned to us at once and your money will be refunded.

GARDEN SEED

ARTICHOKE

GREEN GLOBE. Sow the seed indoors and transplant. Plants should be set in rows 3 feet apart and 2 to 3 feet apart in the row. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ oz. 40c) (oz. 75c) (lb. \$8.50).

ASPARAGUS ROOTS

PALMETTO AND MARY WASHINGTON. Postpaid, (Doz. 40c) (\$2.50 per hundred).

ASPARAGUS SEED

PALMETTO. A very early maturing and prolific type, producing an abundance of large, green shoots of fine, quality. Postpaid, (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 35c) (lb. 75c) (5 lbs. \$3.25).

MARY WASHINGTON. A rust resistant variety. Shoots are long, thick and heavy. Tips fold closely. Color, a rich dark green. Postpaid, (Pkt. 10c) (oz. 25c) ($\frac{1}{4}$ lb. 75c) (lb. \$2.50).

DWARF GREEN POD BEANS

(MEXICO SHIPMENTS—USE NOT PREPAID PRICES)

BOUNTIFUL

USE; Home and Market Gardening.

VINE; 15 inches.

POD; $7\frac{1}{2}$ inches, semi-round, straight, stringless, green.

SEASON; 60 days from planting to table.

PRICE; Subject to change, crop short—practically a failure in the entire country. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 35c) (1 lb. 60c) (2 lbs. \$1.15). Not Prepaid, (1 lb. 50c) (2 lbs. 95c) (5 lbs. \$2.25).

BURPEE'S STRINGLESS

USE; Home and Market Gardening, Canning.

VINE; 15 inches.

POD; 5 inches, round, slightly curved, stringless, green.

SEASON; 58 days from planting to table.

PRICE; Subject to change, crop short—practically a failure in the entire country. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 35c) (1 lb. 60c) (2 lbs. \$1.15). Not Prepaid, (1 lb. 50c) (2 lbs. 95c) (5 lbs. \$2.25) (10 lbs. \$4.25) (20 lbs. \$8.00) (50 lbs. \$19.00).

GIANT STRINGLESS

USE; Home, Market Gardening, Canning.

VINE; 15 inches.

POD; 6 inches, round, straight, stringless, light green.

SEASON; 60 days from planting to table.

PRICE; Subject to change, crop short—practically a failure in the entire country. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 35c) (1 lb. 60c) (2 lbs. \$1.15). Not Prepaid, (1 lb. 50c) (2 lbs. 95c) (5 lbs. \$2.25).

TENNESSEE GREEN POD

Try this Bean. We are listing this splendid variety this year because of its popularity in the South. It is the longest podded dwarf Bean known. The pods are seven to eight inches long, flat, irregular in shape, dark green and of especially fine flavor. Very prolific bearer. Prices, Postpaid, (Pkt. 10c) (lb. 50c) (2 lbs. 95c). Not prepaid (lb. 40c) (2 lbs. 75c) (5 lbs. \$1.75) (10 lbs. \$3.25).

BURPEE'S STRINGLESS GREEN POD

GARDEN BEANS

Beans belong to that tender class of vegetables and the seed cannot be sown until the weather is quite warm. A warm, well drained sandy soil is best. Beans are a most delicious vegetable but should be picked before the pods have reached their full size. Plant the seed in rows not less than 18 inches apart and cover with two inches of dirt. One pound of seed sown thinly fills a row 100 feet long. 60 pounds of seed are usually sown per acre. Never irrigate Beans during the hot summer days except in the late afternoon. If mildew appears, dust with sulphur. In the Fall of the year Beans in our section are often attacked by a small beetle. These beetles may be killed with Palm's Bean Beetle Dust—pound package, 40c, not prepaid. Hoeing is very essential in raising a good Bean Crop. Be careful not to hoe too deep or the roots will be injured. Beans cannot withstand even slight frost.

YELLOW PODDED BUSH BEANS

GOLDEN WAX BEANS

(MEXICO SHIPMENTS—USE NOT PREPAID PRICES)

IMPROVED GOLDEN WAX

USE: For Home and Market Gardening.
VINE: 10 inches, light.
POD: 4 inches, flat, straight, stringless, yellow.
SEASON: 58 days from planting to table.
PRICE: Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 30c) (lb. 50c) (2 lbs. 95c). Not Prepaid, (lb. 45c) (2 lbs. 85c) (5 lbs. \$1.75).

PENCIL POD BLACK WAX

USE: For Home and Market Gardening.
VINE: 15 inches, dark, vigorous.
POD: 6 inches, round, slightly curved, stringless, meaty.
SEASON: 64 days from planting to table.
PRICE: Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 30c) (lb. 50c) (2 lbs. 95c). Not prepaid, (lb. 45c) (2 lbs. 85c) (5 lbs. \$1.85).

POLE BEANS

KENTUCKY WONDER

USE: For Home, Market Gardening, Canning.
POD: 9 inches, nearly round, curved, strings, green.
SEASON: 78 days from planting to table.
PRICE: Postpaid (Pkt. 10c) ($\frac{1}{2}$ lb. 25c) (lb. 40c) (2 lbs. 75c). Not prepaid (lb. 30c) (2 lbs. 60c) (5 lbs. \$1.40) (10 lbs. \$2.75) (20 lbs. \$5.25) (50 lbs. \$11.50).

BUTTER BEANS

BUSH LIMA — FORDHOOK

A perfected form of the Dreer's Bush Lima which it resembles in form of pod and shape of the bean, but both are much larger and the plant makes a strong upright growth which prevents the pod from coming in contact with the soil, thus avoiding rust and rot. The shelled beans are of an attractive green color. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 35c) (lb. 60c) (2 lbs. 1.00). Not prepaid, (5 lbs. \$2.00) (10 lb. lots and over 38c per lb.).

POLE LIMA — GARDEN KING

The beans of this splendid pole lima have a greenish tint when ready for use, which is an indication of good quality. Vines are vigorous and make strong growth, producing large quantities of pods, usually containing four large beans, which are thicker than the ordinary lima, and retain their pale green color even when in the dry state. Postpaid, (Pkt. 10c) ($\frac{1}{4}$ lb. 30c) (lb. 55c) (2 lbs. 95c). Not prepaid, (lb. 45c) (2 lbs. 80c) (5 lbs. \$1.85).

BRUSSELS SPROUTS

Plants resemble the Cabbage, the edible parts being very numerous small heads or sprouts, an inch or two in diameter, formed on the stalk at each leaf joint. The leaves should be broken down in the late Spring to give the little heads room to grow. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ oz. 30c) (oz. 50c) ($\frac{1}{4}$ lb. \$1.40) (lb. \$1.75).

BORECOLE — KALE

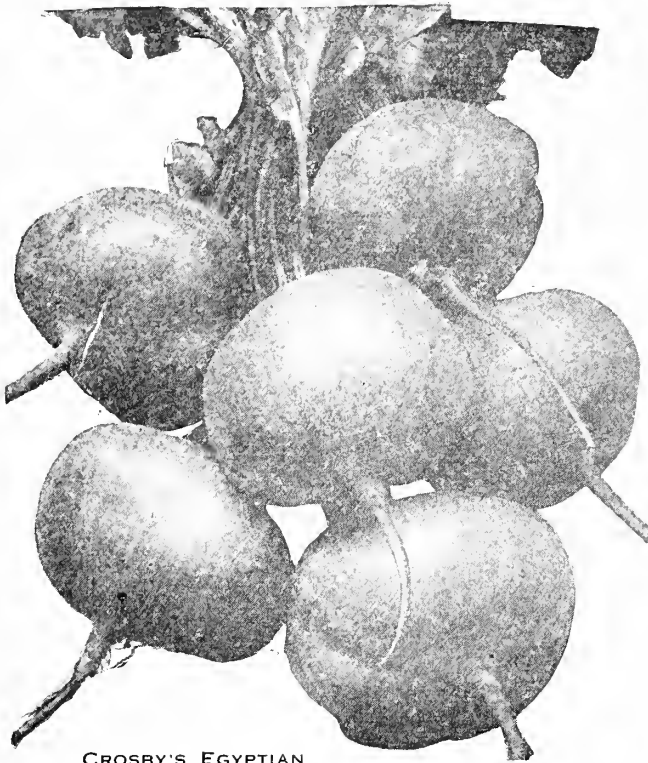

Early green curled Kale. The plant is compact and very hardy. Leaves rich green and very curly. Postpaid, (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 40c) (lb. \$1.25).

BROCCOLI

A vegetable somewhat similar but much hardier than Cauliflower. It matures, however, from 4 to 6 weeks later than Cauliflower. The variety, WHITE CAPE, seems to be the best for the South. The head is white, compact, hard and of a fine quality. Postpaid, (Pkt. 15c) ($\frac{1}{2}$ oz. 35c) (oz. 60c) ($\frac{1}{4}$ lb. \$2.00) (lb. \$7.50).

ITALIAN SPROUTING BROCCOLI. A new sprouting Broccoli, furnishing delicious boiling greens during the Winter and Spring. Culture the same as Cauliflower. Postpaid, (Pkt. 20c) ($\frac{1}{2}$ oz. 50c) (oz. 90c) ($\frac{1}{4}$ lb. \$3.00).

FANCY TABLE BEETS

CROSBY'S EGYPTIAN

STOCK BEETS

Mangels are considered indispensable where stock of any kind is kept. The Beets are excellent also for chickens. Mangels require a deep rich soil. Sow ten to twelve pounds to an acre.

HALF-SUGAR—LONG RED. Postpaid, (oz. 10c) ($\frac{1}{4}$ lb. 25c) (lb. 60c). Not prepaid, (lb. 50c) (5 lb. lots and over 45c per lb.) (10 lb. lots and over 43c per lb.).

COLLARDS — GEORGIA

This variety is the old-time favorite. It stands all sorts of adverse conditions without the slightest injury. Very hardy, it will grow in very poor soil. Prepaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 25c) (lb. 75c).

CRESS — TRUE WATER

A fine relish. Prepaid, (Pkt. 10c) (oz. 50c).

CELERY

GIANT PASCAL. One of the sweetest and best flavored Celery grown. A fine keeping type. Postpaid, (Pkt. 10c) (oz. 25c) ($\frac{1}{4}$ lb. 75c) (lb. \$2.50).

GOLDEN SELF-BLANCHING. A standard type which is very popular everywhere. Postpaid, (Pkt. 10c) (oz. 75c) ($\frac{1}{4}$ lb. \$2.75) (lb. \$7.25).

CROSBY'S EGYPTIAN

This Beet has a very small top and therefore a splendid type for bunching purposes. The roots are globe shaped, flat and very smooth. Color is a bright red. The flesh is very sweet, tender and of an excellent quality. Postpaid, (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 30c) (lb. \$1.00) (2 lbs. \$1.90). Not prepaid (5 lb. lots and over 75c per lb.).

DETROIT PARK RED

In the El Paso Valley this Beet does exceptionally well. The tops are small and up-right in growth. The roots are medium sized, globular, and nearly round, very smooth and of a dark red color. Quality unsurpassed. Postpaid, (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 30c) (lb. \$1.00) (2 lbs. \$1.90). Not prepaid (5 lb. lots and over, 75c per lb.).

SWISS CHARD

Swiss Chard is a type of Beet that produces an edible top, and is in great favor with a great many people. This variety is also used extensively as greens for Poultry. Postpaid, (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 35c) (lb. \$1.00). Not prepaid, (5 lb. lots and over 85c per lb.).

CAULIFLOWER

There is no telling in advance what particular stock of Cauliflower is best suited to your soil and growing conditions. Cauliflower is a very peculiar vegetable, in that it varies greatly in habit of growth when cultivated under new and different conditions. A stock that is early in Denmark may turn out late when planted elsewhere and vice versa. The best advice we can give you on Cauliflower is for you to try various types and when you find a type that suits your climate to stick to this type until you find a type meeting your requirements more perfectly.

ALL OF OUR CAULIFLOWER SEED IS PURCHASED FROM ONE BREEDER, PRODUCING NOTHING BUT PEDIGREED STOCKS OF CAULIFLOWER SEED.

SUPER SNOWBALL

This is a new type originated by Madsen and it is in a class by itself and its qualities are most extra-ordinary and remarkable. For earliness, simultaneousness in heading, uniformity of type, it excels anything seen in Cauliflower. The characteristics of Super Snowball are bound to make the stock a great favorite for the production of an early crop. (Pkt. 50c) (oz. \$3.00).

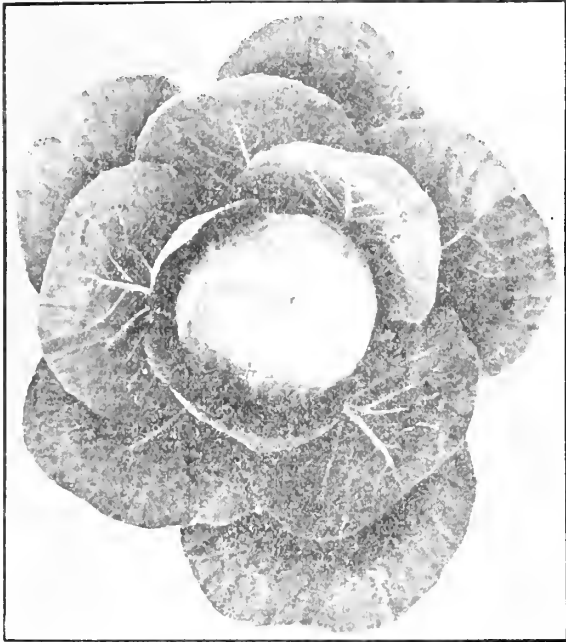

EARLY SNOWBALL (MADSEN)

A fine strain which we have tested ourselves in the Mescalero section of New Mexico. If given proper attention and care it will produce wonderfully deep white heads of fine texture. Postpaid, (Pkt. 25c) ($\frac{1}{4}$ oz. 75c) (oz. \$2.25) ($\frac{1}{4}$ lb. \$7.00) (lb. \$25.00).

DWARF ERFURT

An early market variety, very productive, with large, white, compact heads of good quality. Many Cauliflower growers prefer Dwarf Erfurt to Early Snowball because Dwarf Erfurt is a sure heading type. Postpaid, (Pkt. 25c) ($\frac{1}{4}$ oz. 75c) (oz. \$2.25) ($\frac{1}{4}$ lb. \$7.00).

SELECT CABBAGE SEED

GOLDEN ACRES CABBAGE

GLORY OF ENKHUIZEN

The second early variety and of excellent quality. The plants are of vigorous growth with large, spreading outer leaves which are curved and frilled. The heads are globular, nearly round, very solid, and very large. Glory of Enkhuizen is a very popular Cabbage in Southern Texas. Postpaid, (Pkt. 10c) (oz. 25c) (¼ lb. 75c) (lb. \$2.75). Not prepaid, (5 lb. lots and over \$2.50 per lb.).

CHINESE PE - TSAI

This variety is a straight, short-leaved type which comes from Northern China. It makes a solid head with few outer leaves and is a most desirable type. Grows very quickly, being ready to eat in 60 days. Postpaid, (Pkt. 10c) (oz. 35c) (¼ lb. \$1.00) (lb. \$3.75). Not prepaid, (5 lb. lots and over \$3.50 per lb.).

CARROTS

CHANTENAY. This variety is slightly shorter than Danver's Half Long. It grows very uniform in size and shape. About six inches long. The flesh is a deep colored orange, crisp and sweet. Without doubt the most popular market variety. Postpaid, (Pkt. 10c) (oz. 15c) (¼ lb. 30c) (lb. \$1.00). Not prepaid, (5 lb. lots and over at 75c per lb.).

OXHEART. A spring variety for soils too hard and stiff for the longer growing sorts. The root is short and very thick. Postpaid, (Pkt. 10c) (oz. 15c) (¼ lb. 30c) (lb. 90c). Not prepaid, (5 lb. lots and over at 75c per lb.).

DANVER'S HALF LONG. A rich orange red variety, very smooth and handsome. Tops are of medium size. The roots taper to a blunt point. Almost as popular as the Chantenay type. Postpaid, (Pkt. 10c) (oz. 15c) (¼ lb. 30c) (lb. 90c). Not prepaid (5 lb. lots and over at 75c per lb.).

NANTES. This Carrot is perhaps the best home garden Carrot one can plant. The roots are six to eight inches long, nearly cylindrical, blunt ended, smooth, and of a bright orange color. The flesh is red, sweet and mild. This type of Carrot is very tender after being cooked. Postpaid (Pkt. 10c) (oz. 15c) (¼ lb. 30c) (lb. \$1.00). Not prepaid, (5 lb. lots and over 85c per lb.).

Our stock of Golden Acres, Copenhagen Market, Glory of Enkhuizen, Danish Ballhead Short Stem, and Hollander Evergreen are all produced in Denmark. These seed are grown by very reliable growers and can be implicitly depended upon to give the planter satisfactory results.

GOLDEN ACRES

This is a very early selection of the Copenhagen Market and matures with the Jersey Wakefield. Plants are small and compact with few outer leaves. Heads are of medium size, averaging 2½ lbs. Golden Acre can be planted 12 to 14 inches apart in the row, as the leaf-growth is very compact. Postpaid, (Pkt. 15c) (½ oz. 35c) (oz. 60c) (¼ lb. \$2.00) (lb. \$7.00).

COPENHAGEN MARKET

This type of Cabbage is planted exclusively in our valley for car lot shipments. The heads are very large very solid and of excellent quality. Postpaid (Pkt. 10c) (½ oz. 20c) (oz. 35c) (¼ lb. \$1.00) (lb. \$3.00). Not prepaid, (5 lb. lots and over \$2.75 per lb.).

DANISH BALLHEAD SHORT STEM

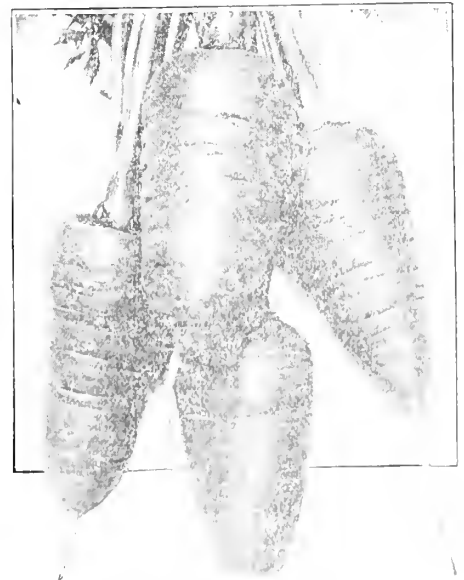

This type of Cabbage is a favorite in the mountain sections near El Paso. This variety grows on a very short stem and produces round heads with a rich dark green color. Postpaid (Pkt. 10c) (oz. 25c) (¼ lb. 75c) (lb. \$2.75). Not prepaid (5 lb. lots and over \$2.50 per lb.).

EARLY JERSEY WAKEFIELD

A type of Cabbage which has been very popular for many years with the Home Gardeners. The plants are exceedingly hardy, compact and erect. The stem is short, the heads are of medium size and very solid. Postpaid, (Pkt. 10c) (oz. 25c) (¼ lb. 75c) (lb. \$2.75). Not prepaid, (5 lb. lots and over \$2.50 per lb.).

HOLLANDER EVERGREEN

This is a short stemmed Cabbage, very similar to Danish Ballhead. The heads are uniform, solid, heavy, and tender. It yields a very heavy tonnage, in some cases as much as 18 tons per acre. It has wonderful keeping qualities and will remain green after having been placed in storage. Postpaid, (Pkt. 10c) (oz. 25c) (¼ lb. 75c) (lb. \$2.75). Not prepaid (5 lb. lots and over \$2.50 per lb.).

DANVER'S HALF LONG

ROASTING EAR CORN

(MEXICO SHIPMENTS—USE NOT PREPAID PRICES)

GOLDEN BANTAM

Now the most popular of all first early Sweet Corns and planted in nearly every garden. This "Yellow Nugget" has made more enthusiastic and satisfied amateur horticulturists than acres of successful gardens filled with other vegetables. The ears are borne two to a stalk, and are about six inches in length with eight rows of kernels on a cob. Matures in 70 days. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 20c) (lb. 35c). Not prepaid, (lb. 25c) (5 lbs. \$1.15.)

MID-SEASON VARIETIES

ADAMS EXTRA EARLY. This is not a sugar corn, strictly speaking, but produces ears well filled with tender white grains. Adams Extra Early has been grown for many years. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 20c) (lb. 30c). Not prepaid, (lb. 25c) (5 lb. lots and over 20c per lb.).

SNOWFLAKE. There is quite a demand for this corn in the South, due to the fact that it is much earlier than Mexican June or Hickory King. The stalk grows a very large deep grained ear. We would say that this corn is two weeks earlier than Mexican June. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 20c) (lb. 30c). Not prepaid, (lb. 25c) (5 lb. lots and over 20c per lb.).

LATE VARIETIES

COUNTRY GENTLEMEN. A delicious tender Sweet Corn with small deep kernels and of high sugar content. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 20c) (lb. 35c). Not prepaid, (lb. 30c) (5 lb. lots and over 22c per lb.).

STOWELL'S EVERGREEN. This Corn is very productive and sweet. For the home gardener, it will always be a favorite. Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 20c) (lb. 35c). Not prepaid, (lb. 30c) (5 lb. lots and over 22c per lb.).

COOLING CUCUMBERS

IMPROVED LONG GREEN

Dark green, firm and crisp, producing a fruit 10 to 12 inches long. A favorite with home gardeners. Postpaid, (Pkt. 10c) (oz. 20c) ($\frac{1}{4}$ lb. 50c) (lb. \$1.50). Not prepaid, (5 lb. lots and over \$1.25 per lb.).

KLONDYKE

This Cucumber may be used for pickling when young. The matured fruit grows 7 to 8 inches long and is very symmetrical in shape. The color is dark green. The fruit does not turn white or yellow with age. Postpaid, (Pkt. 10c) (oz. 20c) ($\frac{1}{4}$ lb. 50c) (lb. \$1.50). Not prepaid, (5 lb. lots and over \$1.25 per lb.).

CHICAGO PICKLING

This variety is used altogether for pickling purposes. When matured the fruit is about 1 inch thick and 3 inches long. Postpaid, (Pkt. 10c) (oz. 20c) ($\frac{1}{4}$ lb. 50c) (lb. \$1.50). Not prepaid, (5 lb. lots and over \$1.25 per lb.).

EARLY FORTUNE

A very fine early productive Cucumber of the White Spine strain. Unexcelled for shipping or for home use. Postpaid, (Pkt. 10c) (oz. 20c) ($\frac{1}{4}$ lb. 50c) (lb. \$1.50). Not prepaid, (5 lb. lots and over \$1.25 per lb.).

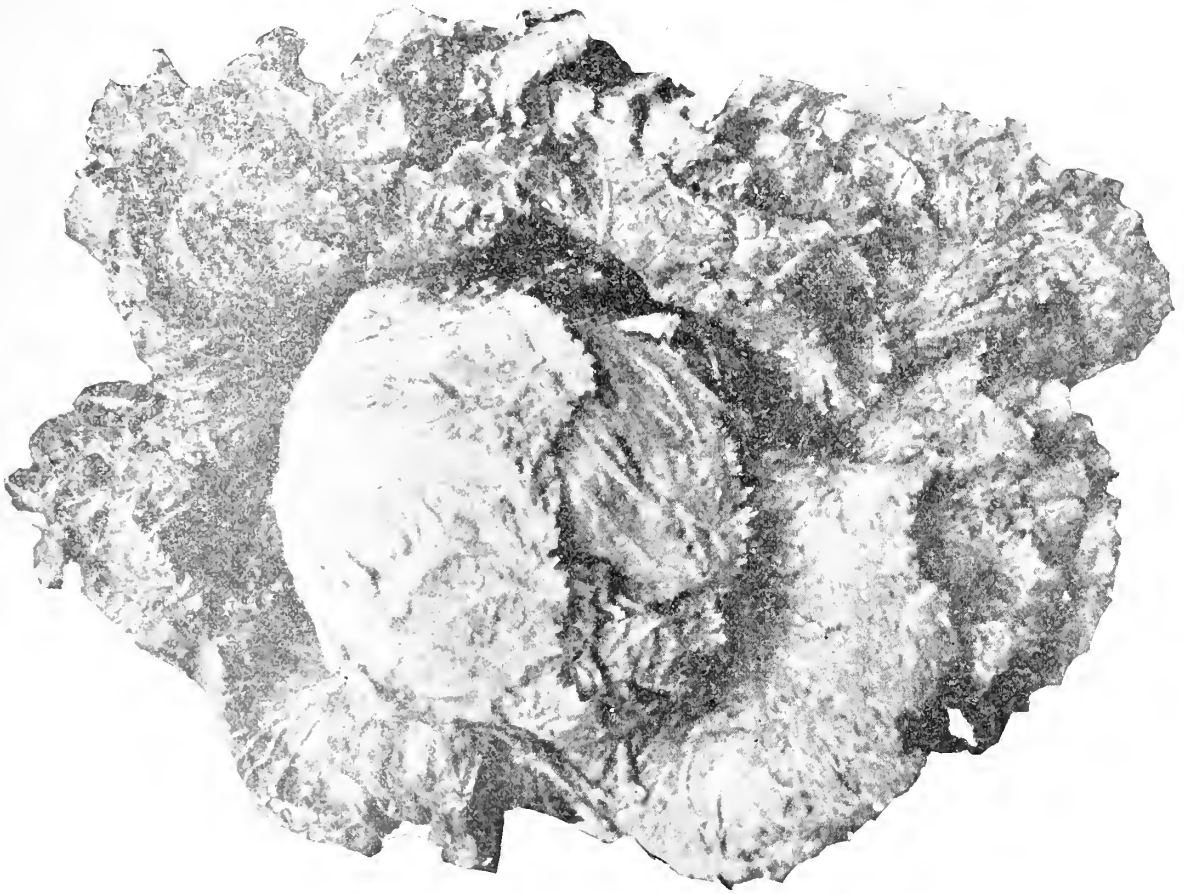

EVERBEARING

This variety is entirely different from any other variety on account of its everbearing character. The vines continue to flower and produce fruit until late in the season. Postpaid, (Pkt. 10c) (oz. 20c) ($\frac{1}{4}$ lb. 50c) (lb. \$1.50). Not prepaid, (5 lb. lots and over \$1.25 per lb.).

THE VAUGHN

An ideal forcing variety for outdoor culture. Fruits are 12 to 16 inches long. Contains very few seeds. One of the finest cucumbers for the home garden. Postpaid, (Pkt. 10c) (oz. 35c) ($\frac{1}{4}$ lb. \$1.00) (lb. \$3.50.)

NEW YORK HEAD LETTUCE

EGG PLANT SEED

NEW YORK PURPLE. Fruits are large, fine and free from thorns. The plants are spineless with light green foliage and usually produce from four to six large fruits of a splendid quality. Postpaid, (Pkt. 10c) (½ oz. 25c) (oz. 40c) (¼ lb. \$1.50) (lb. \$5.00).

BLACK BEAUTY. The earliest large Egg Plant. Matures in 120 days. Fruits are jet black and average two to three pounds in weight. Plant is a dwarf growing and bears its fruit close to the main stem. Postpaid, (Pkt. 10c) (½ oz. 30c) (oz. 50c) (¼ lb. \$1.75) (lb. \$6.00).

ENDIVE

A fine salad crop that should be planted in every garden. Its curled leaves are very ornamental when fully blanched. It is also used extensively for flavoring soups and the young tender leaves are delicious when cooked as greens.

BROAD LEAVED BATAVIAN. A variety having broad bright green leaves with thick, nearly white midribs. Postpaid, (Pkt. 10c) (oz. 15c) (¼ lb. 50c) (lb. \$1.50).

KOHLRABI

EARLY WHITE VIENNA. The best variety one can plant. The bulbs are of medium size, very light green or nearly white and are of the finest quality for the table if used when about two inches in diameter. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 50c) (lb. \$1.50).

NEW YORK-LOS ANGELES

New York Special—1926 Crop. Postpaid, (Pkt. 10c) (oz. 25c) (¼ lb. 75c) (lb. \$2.25). Not prepaid, (5 lb. lots and over \$1.75 per lb.) Write for quantity prices.

ICEBERG

A large, crisp, tight headed Lettuce of good quality. Color is a medium dark green with a redish brown tinge at the edge of the leaves. An excellent variety for nearby market. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 50c) (lb. \$1.75).

WHITE COS

This Lettuce will certainly grow in favor if more people will plant same. It does not run to seed quickly. The color is a beautiful green, broad leaves folding well in the top. Produces hearts which are very crisp and sweet. Postpaid, (Pkt. 10c) (oz. 25c) (¼ lb. 65c) (lb. \$2.00).

CHICKEN LETTUCE

Chicken Lettuce does not make a head but sends up a stalk three to four feet high loaded with leaves. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 50c).

GRAND RAPIDS

A widely known variety, popular for growing bunch lettuce in the home garden. Postpaid, (Pkt. 10c) (oz. 25c) (¼ lb. 60c) (lb. \$1.50).

SPICY MUSKMELONS

POLLOCK 10-25

This strain was developed from Pollock No. 25, but is an improvement over that variety. Very uniform in size and shape and does not develop soft spots. Flesh is sweet and delicious, very deep and fine grained. The seed cavity is exceedingly small. Netting is heavy and even. Matures early and is rust resistant. Cuts with a golden center, shading to a light green, salmon tint near the rind. Ideal for long-distance shipping. Hand cut, fancy selected seed. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 50c) (lb. \$1.50). Not prepaid, (5 lb. lots and over \$1.40 per lb.)

ROCKY FORD

We live in a section where a lot of melons are planted and we think the time will come again when the Rocky Ford will be the most popular melon one can raise. It has a flavor that no other melon has and is extremely sweet. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 30c) (lb. \$1.00). Not prepaid, (5 lb. lots and over 90c per lb.).

GOLD LINED ROCKY FORD

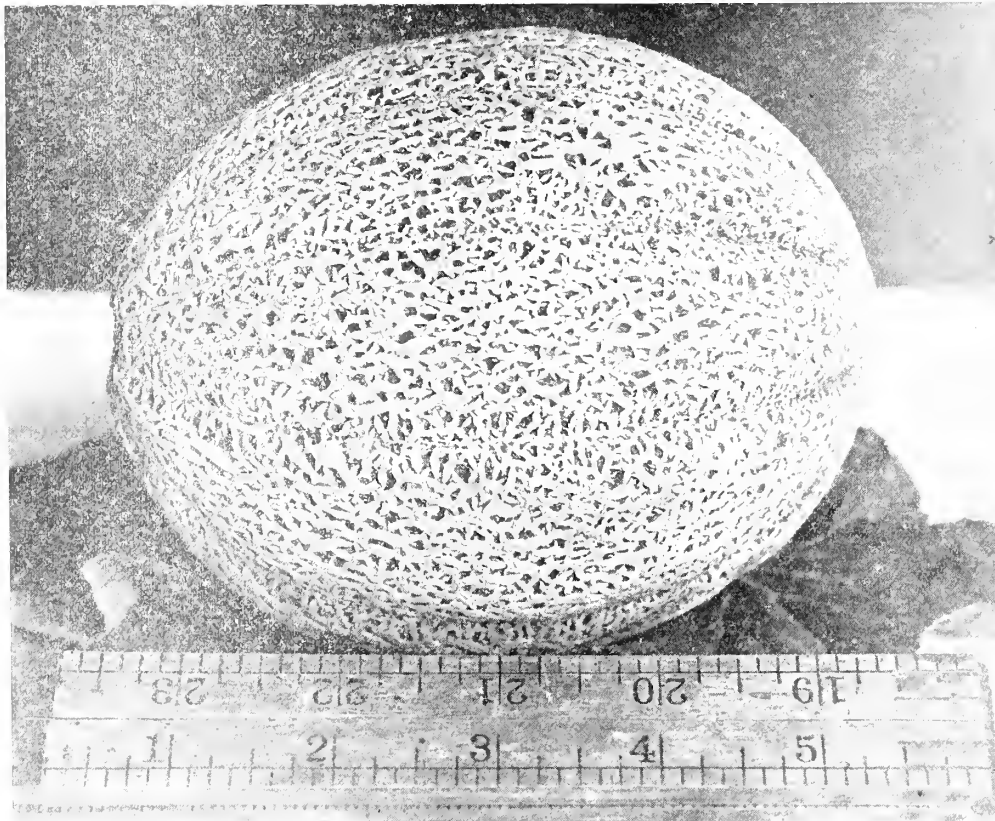

The color of this melon is an attractive Gold. The flesh is very thick, sweet and spicy. The shape is round and completely covered with netting. The vines are rust resistant and yield heavily. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 40c) (lb. \$1.25). Not prepaid, (5 lb. lots and over, \$1.10 per lb.).

TIP TOP MUSKMELON

This Cantaloupe is very popular with growers who sell on the highway. The melons are uniform in size, often weighing 6 to 7 pounds. Pick the melon as soon as the stem will slip. The meat is a rich orange-salmon color, spicy and very sweet. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 45c) (lb. \$1.35). Not prepaid, (5 lb. lots and over, \$1.25 per lb.).

EXTRA EARLY HACKENSACK

Green fleshed variety which is very popular in many sections as a home garden melon. The fruits are medium in size and nearly round, deeply ribbed. Flavor is fine. Postpaid, (Pkt. 5c) (oz. 10c) (¼ lb. 40c) (lb. \$1.25). Not prepaid, (5 lbs. \$5.50).

HALES BEST

(See Cut)

This Melon is ten days earlier than other Rocky Ford types and always makes the grower money. If you are a grower of Cantaloupes we can give you no better advice than to plant Hales Best. Our stock is grown in Colorado by a most reliable grower and we have no hesitancy in saying that our seed is as good as you can buy. The seed cavity of Hales Best is small, the flesh is extremely thick and spicy. It is very hard to distinguish this melon from Perfecto when the two are cut and are placed side by side. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 50c) (lb. \$1.75). Not prepaid, (5 lb. lots and over \$1.60 per lb.)

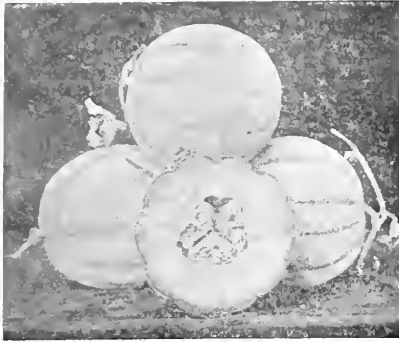

IMPROVED BURRELL'S GEM

Sometimes called Pink Meated Rocky Ford. Meat rich, golden color, very thick, and of fine grain, and fine flavor; covered with a closely laced gray netting, excepting the narrow stripes between the ribs, which are not netted. Oblong shape; not recommended where there is excessive rainfall, as the rain cracks the melons. Postpaid, (Pkt. 10c) (oz. 15c) (¼ lb. 40c) (lb. \$1.25). Not prepaid, (5 lb. lots and over \$1.10 per lb.).

PALM'S WONDER CANTALOUPE

A variety of exceptional value and designed to become the leading sort for home gardens and local markets. It is big, almost round and usually heavily netted. Melons weigh from four to six pounds but good growers pick them up to 10 pounds. The flesh is Salmon colored and exceedingly sweet and luscious. It is an extra early sort. During the peak of the ripening season the Melons should be picked every day. The Melon loses its fine flavor if picked over ripe. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 50c) (lb. \$1.50). Not prepaid, (5 lb. lots and over \$1.40 per lb.).

LUSCIOUS MUSKMELONS

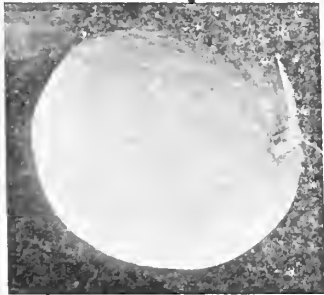

HEARTS OF GOLD

HEARTS OF GOLD

This is a splendid melon, either for the market or to grow for home use. Runs very uniform in size, oval to oblong in shape, and grows a little larger than our Rocky Ford variety. The melons are heavily netted and only slightly ribbed. The seed cavity is small. The flesh is a rich orange color, very fine grained, and has a delicious flavor. This melon retains its natural green color upon ripening, and will remain firm and solid for days after picking from the vine. The vines are inclined to be very healthy and rust resistant, and unusually strong in growth. We very strongly recommend this variety of melon as being one of the very best, and feel sure that you will be pleased with it. Our seed stock is taken from the choicest melons. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 50c) (lb. \$1.75). Not prepaid, (5 lb. lots or over \$1.50 per lb.).

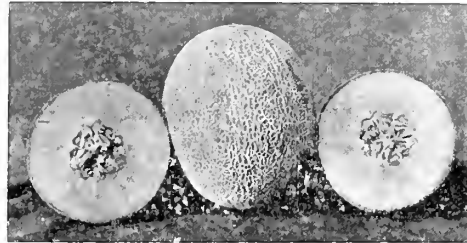

GOLDEN BEAUTY CASABA

This melon, like the Honey Dew, is an Autumn variety. The fruit begins to ripen in September and can be stored in a cool house for Winter use. Skin wrinkled and of a light yellow color. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 50c) (lb. \$1.75).

HONEY DEW

A big favorite in the Southwest. Flesh a light green and as sweet as honey. Rind silvery gray. Melons can be stored and eaten at CHRISTMAS TIME. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 40c) (lb. \$1.50). Not prepaid, (5 lb. lots \$6.75).

THE
SWEETEST
MELON
You Can
Grow.

PERFECTO

Some of the growers of Perfecto claim that this is the sweetest melon that one can grow. It is grown in the El Paso Valley very extensively by the commercial melon growers. The seed cavity is small, the flesh is extremely thick, sweet and spicy. The melons are almost perfectly round, heavily netted, and the meat is a pink. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 40c) (lb. \$1.50). Not prepaid, (5 lb. lots and over, \$1.40 per lb.).

GAUTIER PINEAPPLE

A very popular melon in the Republic of Mexico. It is medium to large in size, heavily netted, green fleshed with excellent flavor. Very solid and a good shipper. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 60c) (lb. \$1.50). Not prepaid, (5 lbs. \$6.25).

Without Hotcaps

With Hotcaps

Grow Earlier Crops

Germaco HOTCAPS mature crops earlier, shield crops from frost, wind and rain; protect them from insects; miniature 'hot-houses.' An amazing invention—crop INSURANCE. A revolutionary device that saves farmers much in time, labor and money. One roll of a thousand \$11.50. Special trial package of 250 with garden "setter," \$4.00. Postage or express extra.

LEEK

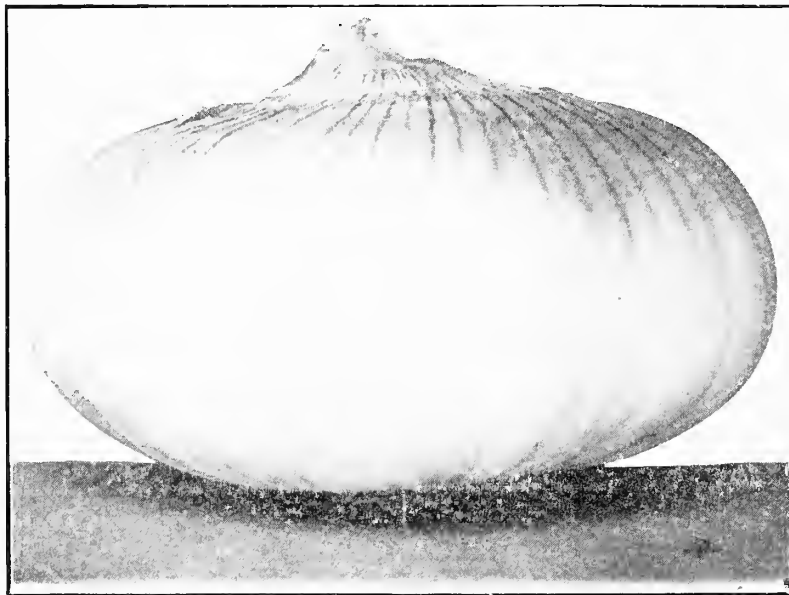

A vegetable resembling the onion very much. It is a bit milder than the Onion and is used as a delightful addition to Lettuce Salads. Postpaid, (Pkt. 10c) (oz. 25c) ($\frac{1}{4}$ lb. 50c) (lb. \$1.50).

OKRA — GUMBO**WHITE VELVET**

A standard variety, the pods being long round and smooth. The plant is of tall growth, bears abundantly and the pods are of superior quality. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 35c) (lb. 90c) (5 lbs. \$4.25).

DWARF GREEN

A very early maturing variety, very productive. The plants are dwarfed, pods short, deep green, tender and of good quality. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 35c) (lb. 90c) (5 lbs. \$4.25).

PALM'S ONION SEED

EL PASO ONION

AUSTRALIAN BROWN

The true type is medium sized and half flat or a little flatter than apple shaped. The skin is very thick and Chesnut Brown in color. The flavor is rather strong and the flesh cooks rather dark. The meat is very solid and the Onion is grown extensively in California and is considered the best keeping Onion that can be raised. Postpaid, (Pkt. 10c) (oz. 25c) ($\frac{1}{4}$ lb. 65c) (lb. \$2.25). Not prepaid, (5 lb. lots and over \$2.60 per lb.).

SWEET SPANISH

A large well shaped, light grown onion, weighing from one to three pounds. The Onion is very sweet and mild and if grown above ground keeps well. It is important to keep this Onion growing continuously from planting time until harvest. Drying off from lack of moisture will likely start new bulbs and this will result in many goosenecks. Postpaid, (Pkt. 10c) (oz. 35c) ($\frac{1}{4}$ lb. \$1.00) (lb. \$3.75). Not prepaid, (5 lb. lots and over \$3.60 per lb.).

MUSTARD**SOUTHERN GIANT CURLED**

A well known variety which is very popular all over the country. The leaves are a light green with a tinge of yellow, curled and frilled at the edges. The plant is upright and slightly spreading. A fine Mustard, commercially and in the home garden. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 30c) (lb. 75c). Not prepaid, (5 lb. lots and over 65c per lb.).

PALM'S TRIPLE CURLED

This type is of vigorous growth and the plants have beautiful dark green leaves which curve outward and resemble fine Ostrich Plumes. It stands up well even during the hottest weather. A heavy yielder. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 30c) (lb. 75c). Not prepaid, (5 lb. lots and over 65c per lb.).

BROAD LEAVED

A new variety that stands very long before bolting to seed. The leaves are large and fairly smooth. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 25c) (lb. 75c).

CRYSTAL WHITE WAX

A white waxy, mild onion, which is grown on a very large scale in many parts of Texas. A very early and very popular Onion but not a good keeper. Postpaid, (Pkt. 10c) (oz. 40c) ($\frac{1}{4}$ lb. \$1.00) (lb. \$3.75). Not prepaid, (5 lb. lots and over \$3.50 per lb.).

EL PASO ONION

A very large, white onion, very tender and of mild flavor. In the Southwest this Onion grows to a remarkable size, averaging 5 to 7 $\frac{1}{2}$ inches in diameter. The shape is flattened, but thick. The skin is a beautiful silvery white. Postpaid, (Pkt. 10c) (oz. 40c) ($\frac{1}{4}$ lb. \$1.25) (lb. \$4.25). Not prepaid, (5 lb. lots and over \$4.00 per lb.).

YELLOW BERMUDA

The standard variety in Southwestern Texas. A light straw colored onion, sometimes called White Bermuda. The onion matures early and is a heavy yielder. Postpaid, (Pkt. 10c) (oz. 30c) ($\frac{1}{4}$ lb. 85c) (lb. \$2.75). Not prepaid, (5 lbs. \$13.25).

SOUTHPORT WHITE GLOBE

This is the most popular, long keeping, white onion grown in America. It is a splendid shipper. It is silvery white in color, globe shaped and of delicious flavor. Postpaid, (Pkt. 10c) (oz. 35c) ($\frac{1}{4}$ lb. \$1.00) (lb. \$3.75). Not prepaid, (5 lb. lots and over \$3.50 per lb.).

SILVER SKIN

This Onion is almost as popular as the the Southport White Globe. The average diameter is four to five inches, the thick skin is a silvery white, the flesh is sweet and tender. Postpaid, (Pkt. 10c) (oz. 35c) ($\frac{1}{4}$ lb. \$1.00) (lb. \$3.50). Not prepaid, (5 lb. lots and over \$3.25 per lb.).

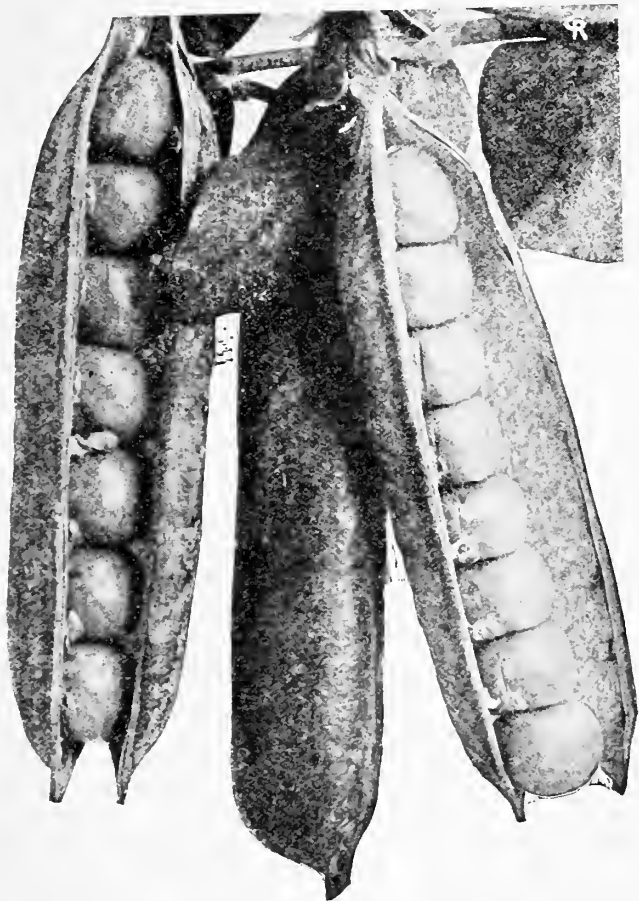

ONION SETS

(MEXICO SHIPMENTS—USE NOT PREPAID PRICES)

Onion sets are coming back into popularity again. We will have beautiful stocks this season grown in the high altitude of Colorado. This stock is much superior to the Eastern Grown stocks. One pound of sets will plant a 50 foot row, it requires 8 to 10 bushels to plant one acre 32 pounds make one bushel.

RED AND YELLOW SETS: Postpaid, (lb. 35c) (2 lbs. 65c). Not prepaid, (lb. 30c) (2 lbs. 55c) (5 lbs. \$1.25).

WHITE ONION SETS: Postpaid, (lb. 35c) (3 lbs. 65c). Not prepaid, (lb. 30c) (2 lbs. 55c) (5 lbs. \$1.30).

LAXTONIAN PEA

PARSLEY

DOUBLE CURLED

A very popular Parsley, fine curled and very ornamental. Postpaid, (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 35c) (lb. \$1.25).

MOSS-TRIPLE CURLED

The leaves are very crumpled and curled. The finest parsley for garnishing. Postpaid, (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 35c) (lb. \$1.25).

PARSNIPS

HOLLOW CROWN—Postpaid, (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 40c) (lb. \$1.25).

GARDEN PEAS

(Mexico Shipments—Use Not Prepaid Prices)

ALASKA

VINE: 28 inches.

POD: $2\frac{1}{2}$ inches.

SEASON: 57 days from planting to table.

PRICE: Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 20c) (lb. 40c) (2 lbs. 70c). Not prepaid, (lb. 30c) (2 lbs. 55c) (5 lbs. \$1.20) (10 lbs. \$2.25).

LAXTONIAN

USE: Home and Market Gardening.

VINE: 17 inches.

POD: 4 inches.

SEASON: 63 days from planting to table.

PRICE: Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 25c) (lb. 40c) (2 lbs. 75c). Not prepaid, (lb. 30c) (2 lbs. 55c) (5 lbs. \$1.35) (10 lbs. \$2.50) (20 lbs. \$4.75).

HUNDREDFOLD

SEASON: 72 days.

PRICE: Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 25c) (lb. 40c) (2 lbs. 75c). Not prepaid, (lb. 30c) (2 lbs. 55c) (5 lbs. \$1.35) (10 lbs. \$2.50) (20 lbs. \$4.75).

STRATAGEM (IMPROVED)

USE: For Home and Market Gardening.

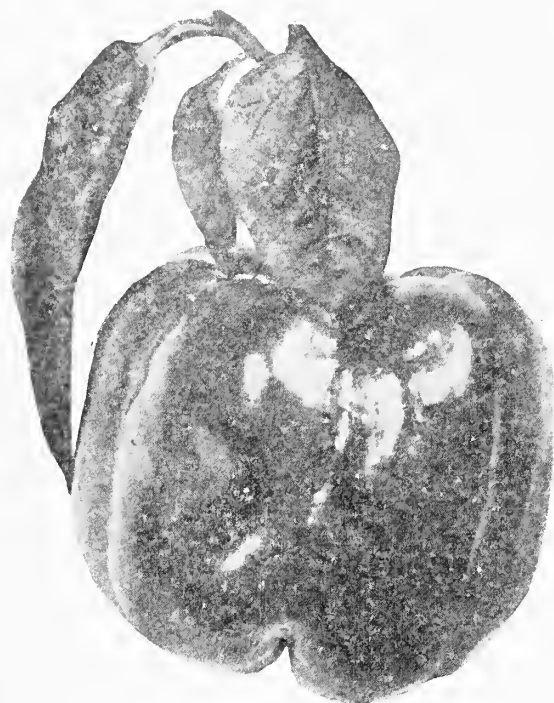

VINE: 20 inches.

POD: Four and one-fourth inches.

SEASON: 79 days.

PRICE: Postpaid, (Pkt. 10c) ($\frac{1}{2}$ lb. 25c) (lb. 40c) (2 lbs. 75c). Not prepaid, (lb. 30c) (2 lbs. 55c) (5 lbs. \$1.35) (10 lbs. \$2.50) (20 lbs. \$4.75).

HOT AND SWEET PEPPERS

CHINESE GIANT

This is a very large Pepper, often growing to the size of five inches in diameter. The walls are thick and if this Pepper is properly cultivated it will yield enormously. Our stock is raised in California and has proven satisfactory to our critical trade for many years. Postpaid, (Pkt. 10c) (oz. 75c) ($\frac{1}{4}$ lb. \$2.50) (lb. \$8.00).

PIMENTO

The mildest and sweetest of all Peppers. Largely grown for canning purposes because of its firm, thick flesh. This Pepper should be grown in every family garden. It is delicious with salads or when stuffed. Postpaid, (Pkt. 10c) (oz. 40c) ($\frac{1}{4}$ lb. \$1.25).

ANAHEIM CHILE

Anaheim Chile is a great favorite in the Southwest. It is planted extensively by nearly everyone. In our climate it can be sun dried and kept for winter use. Postpaid, (Pkt. 10c) (oz. 50c) ($\frac{1}{4}$ lb. \$1.65) (lb. \$5.00).

MEXICAN FLORAL GEM

A beautiful yellow Pepper, growing about $2\frac{1}{2}$ inches long. It is delightfully pungent. The Pepper turns a waxy yellow before maturing. Postpaid, (Pkt. 10c) (oz. 75c) ($\frac{1}{4}$ lb. \$2.25).

TABASCO

This Pepper grows rather tall and bush like and produces great numbers of small, slender, very hot and fiery fruits, one inch long and of a bright scarlet color. Postpaid, (Pkt. 10c) (oz. 50c) ($\frac{1}{4}$ lb. \$1.50).

HARRIS EARLY GIANT

The out-standing feature of this Pepper is its early maturity. It resembles in general appearance, the Crimson Giant but it is much earlier and more prolific. The vines are of medium height and produce vigorously when properly fed. The flesh is extremely mild in flavor. If the seed are planted in-doors in February or March, Harris Early Giant should give you the first Peppers you can raise in your home garden. Postpaid, (Pkt. 15c) (oz. 75c) ($\frac{1}{4}$ lb. \$2.75).

CALIFORNIA WONDER

We believe this is one of the finest Sweet Peppers that has ever been introduced. Very similar in size and shape to the well known Chinese Giant. It is slightly smaller than the Giant but is smoother and more meaty. Very attractive in appearance and makes an excellent market and shipping Pepper. By all means try a packet of California Wonder. Postpaid, (Pkt. 20c) (oz. \$1.00) ($\frac{1}{4}$ lb. \$3.50).

PUMPKINS

LARGE CHEESE

A large, round, somewhat flattened Pumpkin of excellent quality. The flesh is yellow and very thick, and the fruit keeps well. Postpaid, (Pkt. 5c) oz. 15c) ($\frac{1}{4}$ lb. 25c) (lb. 90c).

TENNESSEE SWEET POTATO

A Pumpkin of medium size and slightly ribbed. Color a creamy white, lightly striped with green. This Pumpkin, when cooked resembles a Sweet Potato in flavor. Postpaid, (Pkt. 5c) (oz. 10c) ($\frac{1}{4}$ lb. 40c) (lb. \$1.25).

GREEN STRIPED CASHAW

This is the grandest and finest Pumpkin one can raise. It is a large crooknecked variety. Fruits are very large. Flesh is light yellow, very thick and very sweet. An ideal Pumpkin to grow with Corn. Postpaid, (Pkt. 10c) oz. 20c) ($\frac{1}{4}$ lb. 50c) (lb. \$1.50).

SMALL SUGAR

This is a small Pumpkin, about ten inches in diameter. It has a deep orange yellow skin and fine ground flesh. A very prolific Pumpkin. The average weight is about five pounds. The best Pumpkin one can grow for Pies. Postpaid, (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 40c) (lb. \$1.25).

RHUBARB

CULTURE—Good plants are easily grown in any good garden soil. Keep the soil absolutely free from weeds. One ounce of seed to 125 drill. **LINNAEUS**—A very large and vigorous plant, stalks mostly a deep green, round and of good quality. Postpaid, (Pkt. 10c) (oz. 25c).

SALSIFY

Grow as you do Parsnips. Salsify is wholesome, appetizing and nutritious. Its peculiar Oyster like flavor is most apparent when sliced and fried. The roots may be served and eaten like Asparagus. Postpaid, (Pkt. 10c) (oz. 25c) ($\frac{1}{4}$ lb. 75c) (lb. \$2.25).

SUPERIOR RADISH SEED

WHITE ICICLE

This is a very handsome white transparent variety, as crisp as ice and of mild flavor. Grows about five inches long. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 30c) (lb. 90c). Not prepaid, (5 lb. lots and over 75c per lb.).

LONG BRIGHT SCARLET

A very handsome long scarlet radish, very crisp and tender. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 30c) (lb. 90c). Not prepaid, (5 lb. lots and over 75c per lb.).

EARLY SCARLET TURNIP—WHITE TOP

One of the most attractive and popular of the early Turnip sorts. The roots are slightly flattened, the upper portion a deep scarlet and the under portion white. (Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 30c) (lb. \$1.00). Not prepaid, (5 lb. lots and over 75c per lb.).

WHITE CHINESE

The roots of this Radish grow six to eight inches long, cylindrical and smooth. The skin and flesh are pure white. Very mild flavor. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 30c) (lb. \$1.00).

EARLY SCARLET TURNIP

A very popular and well known variety—a very quick grower. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 30c) (lb. \$1.00).

VICK'S SCARLET GLOBE

We have an exceptionally fine stock of this Radish. It is one of the very earliest of the forcing Radishes and does equally well for outdoor planting. The roots are of fair size, globe shaped and with very small tops. The Radish is always crisp and tender and the color is a bright scarlet. We have a tremendous trade on this Radish with Market Gardeners everywhere. Postpaid, (Pkt. 10c) (oz. 20c) ($\frac{1}{4}$ lb. 30c) (lb. \$1.00). Not prepaid, (lb. 90c) (2 lbs. \$1.75) (5 lbs. \$4.00).

SPINACH SEED

VIROFLAY

One of the most popular types of Spinach. Viroflay is especially valuable for planting in the Spring and in the early Fall as it will mature quicker than any other variety. The leaves are produced on good long stems and are large and smooth. It grows nearly upright and yields a fine tonage. We consider Viroflay as fine a Spinach as one can plant. Postpaid, (Pkt. 5c) (oz. 15c) (lb. 50c) (2 lbs. 90c). Not prepaid, (5 lbs. \$1.75) (10 lbs. \$3.00) (20 lbs. \$5.75) (50 lbs. \$13.00).

PRICKLY WINTER

This Spinach thrives better than other varieties in cold weather. The leaves are broad, thick and of a dark green color. Very popular on the Pacific Coast. (Same price as Viroflay.)

LONG STANDING—ROUND SEEDED

A very rapid growing variety forming a cluster of large, very thick wrinkled leaves. Very popular with Market Gardeners as it is slow to go to seed. (Same price as Viroflay.)

LONG STANDING—GIANT THICK LEAVED

(See Cover Page)

VIROFLAY SPINACH

PALM'S SQUASH

ZUCCHINI

Known in the Southwest as Mexican Squash. It is very piquant in flavor, tender, delightfully palatable and truly a sort worth a place in your garden. It is easy to grow and is a heavy yielder. The fruit should be eaten when young, four

to five inches long. A bush type that should be planted in every garden. This squash, on account of its fine flavor, is sold almost exclusively in the West and Southwest. Postpaid, (Packet 10c) (oz. 20c) ($\frac{1}{4}$ lb. 50c) (1 lb. \$1.75). Not prepaid, (5 lb. lots and over \$1.65 per lb.).

EARLY SUMMER CROOKNECK

A very popular type of Summer Squash. The fruit is rather small, golden yellow and thickly covered with warts. The plant is very prolific. Edible in 50 days. Postpaid, (Packet 5c) (oz. 15c) ($\frac{1}{4}$ lb. 40c) (1 lb. \$1.25) Not prepaid, (10 lb. lots and over \$1.00 per lb.)

WHITE BUSH

The earliest of all varieties of Squash. The vines are very productive. Fruit is of medium size, somewhat flattened and scalloped. Color is a creamy white. Postpaid, (Packet 10c) (oz. 15c) ($\frac{1}{4}$ lb. 40c) (1 lb. \$1.25) Not prepaid, (10 lb. lots and over \$1.00 per lb.)

WARTED HUBBARD

The best pie Squash. Vines are vigorous and very productive. Fruit is large, skin a dark bronze green. Flesh a bright orange. Postpaid, (Pkt. 5c) (oz. 15c) ($\frac{1}{4}$ lb. 40c) (lb. \$1.25).

FORDHOCK SQUASH

This is a most desirable Squash for either Summer or Winter use. The Squash is oblong, eight to ten inches in length, slightly ridged. If allowed to ripen on the vine this Squash can be stored and will keep in good condition until the following June. Postpaid, (Pkt. 10c) (oz. 20c) ($\frac{1}{4}$ lb. 60c) (lb. \$1.75).

FIELD TESTED MARGLOBE TOMATO SEED

MARGLOBE TOMATO

Very few new introductions gain world-wide popularity in a short time. The Marglobe Tomato, however, seems to be an exception to the rule. This tomato was developed by the United States Department of Agriculture. In every section of the country where it has been given a test it seems to have won universal favor. No matter where you go you find everybody partial to the Marglobe. It is pure scarlet, globe shaped Tomato, having the fine characteristics of the Globe. In our section it doesn't produce as many cat faces as other types and it seems to withstand the wilt in many sections. Postpaid, (Packet 15c) (oz. 75c) ($\frac{1}{4}$ lb. \$2.00) (lb. \$6.50) Not prepaid, (lb. \$6.00) (5 lbs. \$28.00) Our stock is fine.

TOMATO SEED

GROWING TOMATOES

It is better to plant your Tomato seed where they are to grow. Transplanting in some localities is successful but as a rule Tomatoes, reset, are less likely to withstand diseases than if grown from seed planted in the field. If you want extra early Tomatoes, plant them in the field and Hot Cap them.

FIRST EARLY

An early variety and a good money maker. First Early is uniform in size, fairly smooth, inclined to globe shape. This Tomato is of good size and bears longer than most early Tomatoes. Postpaid. (Pkt. 10c) (oz. 50c) ($\frac{1}{4}$ lb. \$1.75) (1 lb. \$5.00)

NORTON

This Tomato is known to the trade as the Improved Stone. It is a wilt-resisting type and is one of the best shipping Tomatoes that can be grown. This Tomato is of fair size, very solid and a splendid yielder. On account of its solidity, many packers prefer Norton to all other varieties. Postpaid (Pkt. 10c) (oz. 60c) ($\frac{1}{4}$ lb. \$1.75) (lb. \$5.50).

TOMATO 498

The finest eating Tomato in the World. This is a pretty broad statement to make. Order a 10c packet and try it out in your home garden. If you will do this you will always buy 498. There was a good acreage planted to this Tomato in the El Paso Valley the past Spring and while the Tomatoes were not perfect in form they were of a delicious flavor. The Tomato is an early type and produces a fruit that ships well. For the home garden you can't plant a better Tomato. Please let us have your order for one or two packets if you are fond of Tomatoes. We are absolutely certain that 498 is the best tasting tomato in the world. Postpaid (Packet 10c) ($\frac{1}{2}$ oz. 30c) (1 oz. 50c) ($\frac{1}{4}$ lb. \$1.75) (1 lb. \$6.00) Not prepaid, (10 lb. lots and over \$5.50 per lb.)

PONDEROSA

A very large purple Tomato with few seeds and of very good flavor. Our strain is round and smooth—not the usual oblong wrinkled kind. A very popular Tomato with the Home Gardener. Postpaid. (Pkt. 10c) (oz. 70c) ($\frac{1}{4}$ lb. \$2.25) (1 lb. \$7.00)

SWEET TURNIPS

PALM'S PEERLESS

PURPLE TOP WHITE GLOBE

We do not believe that you can buy a better strain of this splendid table variety than we offer. We do not handle imported seed of this Turnip. All of our seed is grown in America by one of the best growers and we have never had a complaint on our stock from our market gardeners. Postpaid. (Pkt. 5c) (1 oz. 10c) ($\frac{1}{4}$ lb. 25c) (1 lb. 75c) (5 lbs. \$3.00). Not prepaid, (5 lb. lots and over 60c per lb.) (10 lots and over 50c per lb.)

YELLOW GLOBE

Grown principally for stock feed. Roots are large and of a clear yellow except for the top, which is tinged with green. Flesh is light yellow and sweet. Postpaid. (Pkt. 5c) (oz. 10c) ($\frac{1}{4}$ lb. 25c) (1 lb. 75c) (5 lbs. \$3.50). Not prepaid (5 lb. lots and over 60c per lb.)

IMPROVED AMERICAN RUTABAGA

Rutabagas do best on new land or light sandy soil. They make good table Turnips or good stock feed. It is sometimes possible to get 15 to 25 tons of roots per acre. Postpaid. (Pkt. 5c) (1 oz. 10c) ($\frac{1}{4}$ lb. 25c) (1 lb. 75c) (5 lbs. \$3.25). Not prepaid (5 lb. lots and over 60c per lb.)

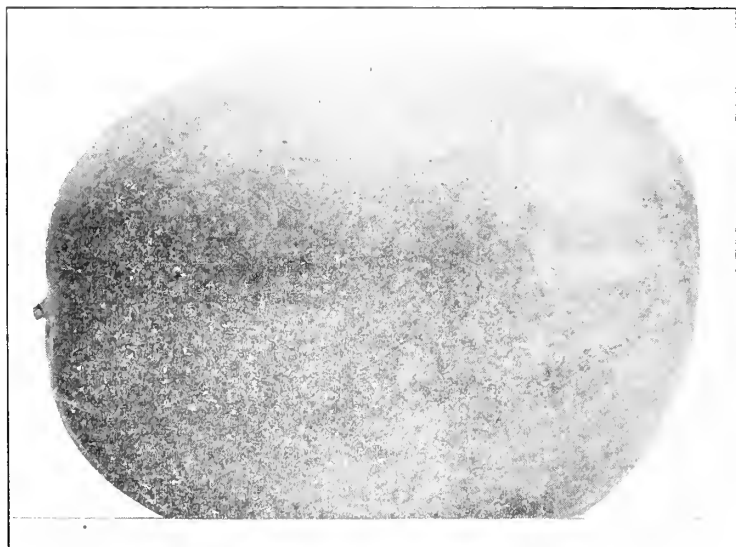

SNOWBALL

This Turnip is of medium size, pure white in color and a fine flavor. It is ready for the table 6 weeks after planting. Popular with the market gardeners for bunching purposes. Postpaid. (Pkt. 5c) (1 oz. 10c) ($\frac{1}{4}$ lb. 25c) (1 lb. 75c) (5 lbs. \$3.50). Not prepaid (5 lb. lots and over 60c per lb.)

PURPLE TOP WHITE GLOBE

SWEET AND JUICY WATERMELONS

STONE MOUNTAIN MELON

HALBERT HONEY

A very sweet, long, dark green Melon, averaging 18 to 20 inches in length. Rind is thin and the meat a deep red, of delicious flavor. The flesh is free from strings. Average size 25 pounds. Postpaid, (Pkt. 10c) (oz. 15c) (¼ lb. 30c) (lb. \$1.00). Not prepaid, (5 lb. lots and over 80c per lb.) (25 lb. lots and over 75c per lb.)

GOLDEN GATE

This Melon is of California origin and is very popular in the San Francisco District. The seed are small, black and brown, the flesh being a brilliant red. A fine Melon for the market gardener as well as for the Home Gardener. The flesh is very tender, sweet, and juicy. Postpaid, (Pkt. 10c) (oz. 20c) (¼ lb. 35c) (1 lb. \$1.25). Not prepaid (5 lb. lots and over 90c per lb.)

IRISH GREY

A new Melon that has attained great popularity. The flesh is red, crisp and sweet, free from stringiness. Color of rind mottled greenish grey. Vines very vigorous and hold up and produce Melons in Summer when other sorts die. Good shipper. Postpaid, (Pkt. 10c) (oz. 15c) (¼ lb. 30c) (lb. \$1.00). Not prepaid, (10 lb. lots and over 75c per lb.)

KLECKLEY SWEET

An immensely popular Watermelon because of its superb flavor and tenderness. It is not a good shipper, however, but for nearby market and home consumption it is the most superior. Average weight about 20 pounds, color a medium green. Flesh is a bright red. Postpaid, (Pkt. 10c) (oz. 15c) (¼ lb. 30c) (1 lb. \$1.00). Not prepaid, (5 lb. lots and over 80 per lb.) Write for prices on large quantities.

TOM WATSON

A very long Melon of striking appearance. Its flesh is a deep crimson and as sweet as honey. Tom Watson is one of the best shipping Melons that you can raise. It will average from 40 to 50 pounds. Postpaid, (Pkt. 10c) (oz. 15c) (¼ lb. 30c). Not prepaid, (5 lb. lots and over 80c per pound.) Write for prices on larger quantities.

STONE MOUNTAIN

The best of the round Watermelons. It is very sweet, grows very large and is almost round or square. It is a rich dark green in color, has a medium rind and the flesh is an attractive red. On good rich Melon soil Stone Mountain will grow Melons from 40 to 80 lbs. in weight. It is not a good shipper, however. One of our customers in the Gila Valley told us that the Stone Mountain was the best Melon he had ever raised. The Melon has very few seeds. Postpaid, (Packet 10c) (oz. 20c) (¼ lb. 50c) (1 lb. \$1.50). Not prepaid, (5 lb. lots and over \$1.25 per lb.).

BLACK SEEDED ANGELENO

This Melon is a cross between the Angeleno and the Black Seeded Chillian. It is a splendid shipper. The average weight of the Melons are from 25 to 30 lbs. Flesh is very tender, sweet and juicy. Postpaid, (Packet 10c) (oz. 20c) (¼ lb. 40c) (1 lb. \$1.25). Not prepaid, (5 lb. lots and over 90c per lb.) (25 lb. lots and over 80c per lb.)

KLONDYKE

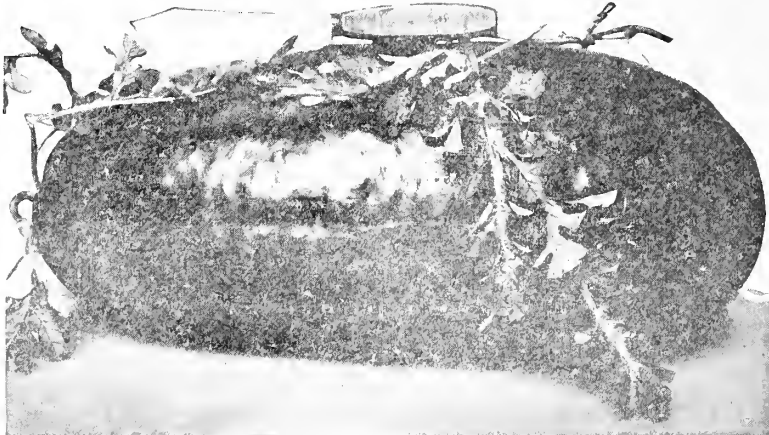

The South may have its New Wonder, its Honey Boy, its Radio and many other varieties, but we maintain that the Klondyke has any Melon in America bested. This Melon has never been given an extensive trial in the South but in the Southwest nothing compares with the Klondyke. If you have ever been to California and eaten a Watermelon, you have eaten a Klondyke. One lb. will number as many seed as two lbs. of other varieties. Postpaid, (Packet 10c) (oz. 25c) (¼ lb. 75c) (1 lb. \$2.00). Not prepaid, (5 lb. lots and over \$1.85 per lb.)

GOLDEN HONEY

The best of the yellow flesh Melons. The shape is oblong, the seeds are white with black tips and the average weight is 20 lbs. The rind is a dark green with irregular stripes of a darker green. The flesh is a sparkling golden yellow, very attractive and every bit as delicious as its appearance indicates. Edible in 90 days. Postpaid, (Packet 10c) (oz. 15c) (¼ lb. 30c) (1 lb. \$1.00). Not prepaid, (5 lb. lots and over 85c per lb.)

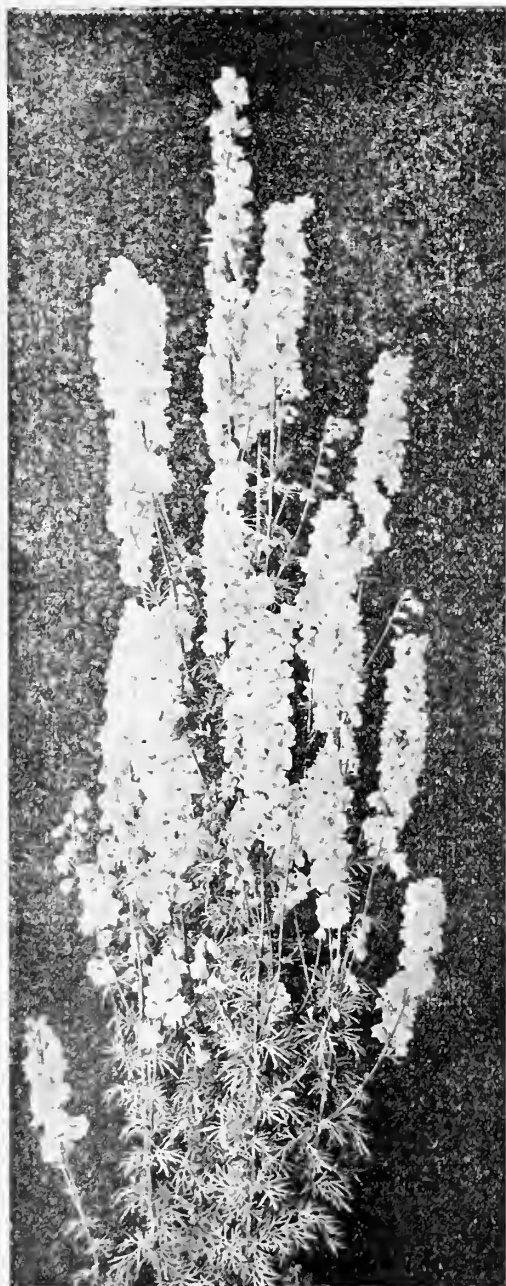

WINTER MELON

This Melon is of Russian origin. The skin is a light cream in color with very thin stripes of light green. It is very early, prolific, and its edible qualities are excellent. When properly stored it will remain edible for several months. Average weight 10 lbs. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. 65c) (lb. \$1.75).

TOM WATSON MELON

PRETTY COLORS

LARKSPUR

EXQUISITE PINK IMPROVED

(New—Very Fine)

(Pkt. 25c) (¼ oz. 75c) (oz. \$2.25).

CORNFLOWER—DOUBLE BLUE

(Pkt. 10c) (3 Pkts. 25c) (oz. 40c).

CANDYTUFT

White, Pink, Crimson, Lavender, Rose.

(Pkt. 10c) (½ oz. 25c).

STOCKS—GIANT BISMARCK

This stock throws a very large per cent of doubles and is well adapted to the Southwest. Blood Red, Chamois, Dark Blue, Golden Yellow, Lavender, Rose and White. (Pkt. 15c) (½ oz. 75c).

STATICE—CASPIA

A new variety of minute Blue Flowers. (Pkt. 20c).

VERBENA—GRANDIFLORA

These Verbenas are fixed and come true from seed. Luminous Flame, Pink shading to Salmon, Deep Violet with White Eye, Vivid Scarlet, Blue with White Eye, White. (Pkt. 15c) (½ oz. 40c).

LARKSPUR—DOUBLE STOCK FLOWERED

Light Blue, Dark Blue, Lilac, Lustrous Carmine, Brilliant Rose, White. (Pkt. 10c) (¼ oz. 25c) (oz. 75c).

FORGET-ME-NOTS—CHINESE—NEW

Flowers are of a beautiful shade of Blue. Grows to a height of about twenty inches. Cut the flowers as soon as they bloom. (Pkt. 10c) (¼ oz. 30c).

GYPSOPHILA—PARIS MARKET

Wonderful cut flower. White. (Pkt. 10c) (¼ oz. 20c).

HOLLYHOCKS—DOUBLE

Deep Rose, Pink, Scarlet, Yellow, White. (Pkt. 10c) (¼ oz. 50c).

PETUNIA—BEDDING

Blood Red, Brilliant Rose, Pink, Violet, Purple with White Star, White. (Pkt. 10c) (½ oz. 40c).

SCABIOSA—GRANDIFLORA

Ageratum Blue, Azure Fairy (Azure Blue), Fire King, Flesh Pink, Red, Rose. (Pkt. 10c) (¼ oz. 30c) (oz. 75c).

SCABIOSA—SHASTA AND PEACH BLOSSOM—(Pkt. 20c)

POPPY

Shrimp Pink, Salmon Shades. (Pkt. 10c) (½ oz. 30c).

GIANT FLOWERED SNAPDRAGONS

Canary Yellow, Deep Purple, White, Pink, Lilac, Scarlet, Apple Blossom. (Pkt. 15c) (½ oz. 60c).

PALM'S CALENDULA—ORANGE KING

Private stock imported from Germany. (Pkt. 10c) (¼ oz. 25c).

CENTAUREA—IMPERIALIS

Lavender, Rose, Lilac, Purple, Yellow. (Pkt. 10c) (¼ oz. 30c) (½ oz. 50c).

CALIFORNIA GIANTS—PINK SHADES

We planted several beds of this fine mixture last year and everyone who saw the flowers said the colors were wonderful. We blend the shades ourselves and we ask everyone who plants the Zinnia to try the Giant Pink Shades. Postpaid, (Pkt. 15c) (2 Pkts. 25c) (¼ oz. 50c) (oz. \$1.50).

FLOWER SEED

TO BE PLANTED IN THE FALL

ALYSSUM—LITTLE GEM

(Pkt. 10c) ($\frac{1}{2}$ oz. 40c).

ANTIRRHINUM—TALL MIXED SNAPDRAGONS

(Pkt. 10c) ($\frac{1}{8}$ oz. 35c).

CALENDULA—MIXED

(Pkt. 5c) ($\frac{1}{2}$ oz. 25c).

CANDYTUFT—MIXED COLORS

(Pkt. 10c) ($\frac{1}{2}$ oz. 25c).

CARNATION

GIANT MARGUERITE. (Pkt. 15c) ($\frac{1}{4}$ oz. 40c).

GIANT CHABAUD, Mixed. (Pkt. 20c).

CORNFLOWER—DOUBLE MIXED

(Pkt. 10c) ($\frac{1}{2}$ oz. 25c) (oz. 40c).

CENTUREA—IMPERIALIS—MIXED

(Pkt. 10c) ($\frac{1}{4}$ oz. 25c) ($\frac{1}{2}$ oz. 40c).

ESCHSCHOLTZIA

California Hybrids. (Pkt. 15c) ($\frac{1}{2}$ oz. 60c).

Golden West. (Pkt. 10c) (oz. 40c).

FORGET-ME-NOTS—CHINESE—NEW

(Pkt. 10c) ($\frac{1}{4}$ oz. 30c).

GYPSOPHILA—BABY'S BREATH

(Pkt. 10c) ($\frac{1}{4}$ oz. 20c).

HOLLYHOCK—DOUBLE MIXED

(Pkt. 10c) ($\frac{1}{4}$ oz. 50c).

LARKSPUR—DOUBLE STOCK FLOWERED

(Pkt. 10c) ($\frac{1}{4}$ oz. 25c) (oz. 75c).

POPPIES

Shirley Mixed. (Pkt. 10c) ($\frac{1}{2}$ oz. 25c) (oz. 40c).

Peony Flowered Mixed. (Pkt. 10c) ($\frac{1}{2}$ oz. 25c)

PANSY—GIANT FRENCH MIXED

(Pkt. 15c) ($\frac{1}{4}$ oz. 60c).

SCABIOSA—MIXED COLORS

(Pkt. 10c) ($\frac{1}{4}$ oz. 30c) (oz. 75c).

STOCK—GIANT BISMARCK MIXED

(Pkt. 15c) ($\frac{1}{8}$ oz. 75c).

SWEET WILLIAM—MIXED COLORS

(Pkt. 10c) ($\frac{1}{4}$ oz. 35c).

TEXAS BLUE BONNET

(Pkt. 10c) (oz. 40c).

VERBENA—MIXED—GRANDIFLORA

(Pkt. 15c) ($\frac{1}{8}$ oz. 40c).

WALLFLOWER—SINGLE MIXED

(Pkt. 10c) ($\frac{1}{2}$ oz. 35c).

TO BE PLANTED IN THE SPRING

AGERTUM—BLUE PERFECTION

(Pkt. 10c) ($\frac{1}{8}$ oz. 25c).

AFRICAN LILAC DAISY

(Pkt. 10c) ($\frac{1}{4}$ oz. 30c).

ASTERS

Giants of California, mixed. (Pkt. 15c) ($\frac{1}{8}$ oz. 40c).

American Branching, mixed. (Pkt. 10c) ($\frac{1}{2}$ oz. 25c).

DOUBLE BALSAM—MIXED COLORS

(Pkt. 10c) ($\frac{1}{2}$ oz. 35c).

CELOSIA—CHINESE WOOL FLOWER—MIXED

(Pkt. 10c) ($\frac{1}{4}$ oz. 40c).

COSMOS

Klondyke, Yellow. (Pkt. 10c) ($\frac{1}{4}$ oz. 40c).

Mammoth Flowered Mixed. (Pkt. 10c) ($\frac{1}{2}$ oz. 30c).

Double Crested, Mixed. (Pkt. 20c).

DAHLIA—DOUBLE MIXED

(Pkt. 15c) ($\frac{1}{4}$ oz. 75c).

DIANTHUS—DOUBLE JAPANESE—RED

(Pkt. 10c).

FOUR O'CLOCK—MIXED COLORS

(Pkt. 5c) (oz. 25c).

HELIOTROPE—MIXED COLORS

(Pkt. 15c) ($\frac{1}{4}$ oz. 50c).

GLOBE AMARANTH—MIXED COLORS

(Pkt. 10c) ($\frac{1}{4}$ oz. 25c).

MARIGOLD—TALL AFRICAN DOUBLE

Double Lemon. (Pkt. 10c) ($\frac{1}{4}$ oz. 35c).

Double Orange. (Pkt. 10c) ($\frac{1}{4}$ oz. 35c).

Dwarf French Double. (Pkt. 10c) ($\frac{1}{4}$ oz. 25c).

NASTURTIUM

Dwarf Mixed. (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 50c).

Tall Mixed. (Pkt. 10c) (oz. 15c) ($\frac{1}{4}$ lb. 50c).

PETUNIA—OUR OWN MIXTURE

Bedding Mixture. (Pkt. 10c) ($\frac{1}{8}$ oz. 40c).

California Giants. (Pkt. 25c).

PORTULACA

Double Mixed. (Pkt. 10c) ($\frac{1}{8}$ oz. 65c)

Single Mixed. (Pkt. 10c) ($\frac{1}{4}$ oz. 25c).

PHLOX—LARGE FLOWERING—MIXTURE

(Pkt. 10c) ($\frac{1}{4}$ oz. 50c).

RICINUS—CASTOR OIL BEAN

(Pkt. 5c) (oz. 20c).

STOKESIA—BLUE CORNFLOWER ASTER

(Pkt. 20c) ($\frac{1}{8}$ lb. 50c).

VINCA—MIXED COLORS

(Pkt. 10c) ($\frac{1}{4}$ oz. 40c).

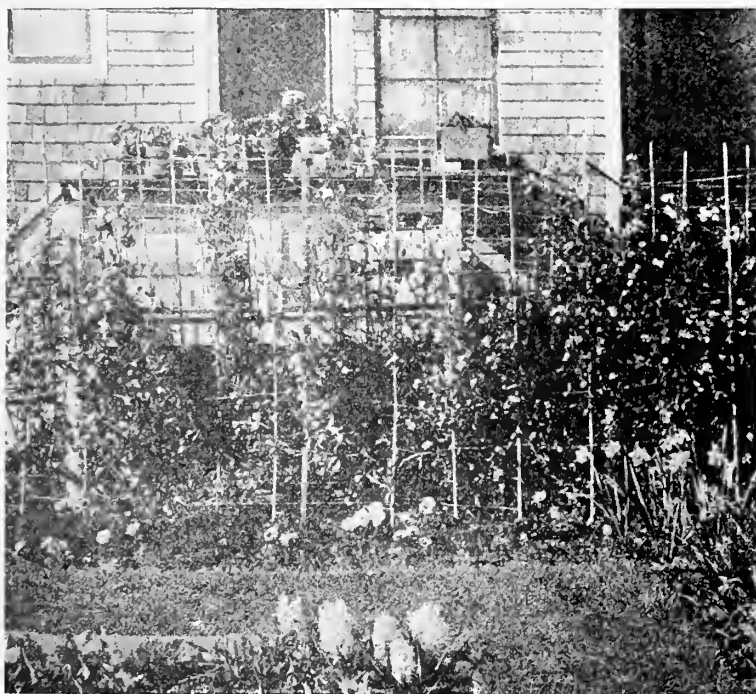

ZINNIA

(See page 20).

ORCHID FLOWERING SWEET PEAS

We do not believe that any community in the South or the Southwest produces as many commercial Sweet Peas as the El Paso Valley. We would say that at least fifteen acres are devoted to this one flower in our valley. It is one of the favorite flowers of the Mexican people. One can drive East in our valley to Ysleta and see hundreds of stands offering beautiful Sweet Peas in every imaginable color. All of our Peas are sown in October, November, and December.

In order to produce Sweet Peas with long stems, it is necessary to exercise special care in preparing the seed bed. Sweet Peas do not do well in Sandy soil. They prefer a soil thoroughly enriched with manure. Our practice is to plant a double row, 12 inches apart. We fill the irrigation furrow a foot deep with manure and dig this well into the soil. After the Sweet Peas come up we sprinkle the ridge with a little lime and some of the best growers re-fertilize the plants in January with a mixture of Meat Meal and Bone Meal. One must have lots of plant food in the soil to grow long stemmed Sweet Peas. The vines should be trained on a trellis of some kind and the blossoms should always be cut instead of pulled. The vines should receive an ample supply of water during the flowering season.

There are various other ways that Sweet Peas may be planted. The essential thing is to plant Sweet Peas in a soil that will retain moisture and which has been heavily manured.

Our experience with the commercial growers in the El Paso Valley has enabled us to pick out the most popular colors with the public. The list that we give below will do well in any climate. The colors will not fade even in the hottest sun.

FLORISTS' MIXTURE

We make this mixture ourselves from the separate colors which we buy each year. INCLUDING ALL NOVELTIES. We do not BUY any mixed colors in Sweet Peas. Field grown mixtures suit a great many people but we figure that we can make more friends by selling them our FLORISTS' MIXTURE. Our FLORISTS' MIXTURE costs us more money than Field Grown mixtures would, but we get a great deal of satisfaction from selling our customers this fine mixture and we know that our customers can grow better Sweet Peas from our mixture than they can grow from Field Grown Mixtures. Postpaid, (Pkt. 10c) (oz. 35c) (¼ lb. \$1.00) (lb. \$3.50).

SEPARATE COLORS

AUSTIN FREDERICK IMPROVED—A large pure lavender. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. \$1.00) (lb. \$2.75).

CONSTANCE HINTON—Giant white and black-seeded. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. \$1.00) (lb. \$2.75).

CRIMSON KING—Rich Oxblood crimson. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. \$1.00) (lb. \$2.75).

HEAVENLY BLUE—Delphinium blue. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. \$1.00) (lb. \$2.75).

HELEN LEWIS—Orange pink. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. \$1.00) (lb. \$2.75).

HERCULES—Giant Pure Pink. Postpaid, (Pkt. 10c) (oz. 35c) (¼ lb. \$1.00) (lb. \$2.75).

MARY PICKFORD—Cream Pink suffused with Salmon. Postpaid, (Pkt. 15c) (oz. 40c) (½ lb. \$2.50) (lb. \$1.50).

MISS CALIFORNIA—Salmon Pink. Postpaid, (Pkt. 10c) (oz. 35c) (¼ lb. \$1.00) (lb. \$3.50).

MRS. TOM JONES—Deep Amethyst Blue. Very fine. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. \$1.00) (lb. \$2.75).

PINKIE—A wonderful large Rose Pink. Postpaid, (Pkt. 25c) (oz. 75c) (½ lb. \$6.00) (lb. \$11.00).

ROYAL PURPLE—Rich Purple. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. \$1.00) (lb. \$2.75).

ROYAL SCOTT—Brilliant Scarlet. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. \$1.00) (lb. \$2.75).

SUNKIST—Large Rose Picotee edged on cream ground. Postpaid, (Pkt. 25c) (oz. 75c) (½ lb. \$6.50) (lb. \$12.00).

DOREEN—A rich large carmine. Postpaid, (Pkt. 10c) (oz. 30c) (¼ lb. \$1.00) (lb. \$2.75).

SUNSHINE ZINNIAS

This flower is a flower for the Summer. They withstand the long hot Summers perfectly and if the flowers are cut they continue to bloom from May until frost. The color range is wonderful and the seed can be sown any time from February to September. The culture of a Zinnia, however, is much neglected. Many people want to drop the seed in any kind of soil and water the plants now and then. This method of growing Zinnias is wrong. We have grown Zinnias in the Parks of El Paso for many years and we have found out a great many cultural points that should be observed if one wishes to grow handsome flowers.

The Zinnia feeds very close to the surface. The soil should therefore be fairly rich and rather heavy and retentive of moisture. Do not allow your Zinnia beds to get dry.

DAHLIA FLOWERED

EXQUISITE—A true Dahlia Flowered. Color, light rose with center a deep rose.

CRIMSON MONARCH—The largest and best of the Red Shades. Flowers can be grown to average 7 inches in diameter.

ORIOLE—An immense orange and golden bicolor, changing slightly as it ages.

PURPLE PRINCE—A fine deep purple. Flowers large and well formed.

POLAR BEAR—A very rich pure white. True Dahlia form.

BUTTERCUP—A deep creamy yellow. We consider the Buttercup the finest color in the group.

CANARY BIRD—A delicate shade of Primrose, very rich, and its color holds well until out of bloom.

SEPARATE COLORS: (Pkt. 20c) (3 Pkts. 55c) (½ oz. 75c)
GOLD MEDAL MIXTURE; (Pkt. 15c) (2 Pkts. 25c) (½ oz. 55c)
 (½ oz. \$1.00)

The spacing of a Zinnia is a very important thing. The Zinnia is grown commercially in our valley in the heavy adobe soil and in such soil the seed can be sown quite close. We would say, however, that in the average garden soil it would be much better to space the plants at least 14 inches apart. This method we use in the City Parks of El Paso.

THE BEST TYPES

It costs just as much money in labor and water to raise ordinary flowers as it does extra pretty flowers. Everyone has a preference but our experience over a number of years has convinced us that the California Giants and the Dahlia Flowered types are the best to plant. The range of colors in each of these types are fine.

CALIFORNIA GIANTS

MISS WILLMOTT—This is a mutation from the Dahlia Flowered and is of the imbricated type. When in full bloom it has a flattened appearance. The flowers are very graceful and are of enormous size. A wonderful flower for florists' work. The color is a soft Salmon Pink.

ENCHANTRESS—This is the same pleasing color as "Exquisite" in the Dahlia Flowered type. If the flower is cut before coming into full bloom it will vase nicely.

CERISE QUEEN—A very bright and a very striking new color.

LEMON KING—Golden Yellow.

LEMON QUEEN—Lemon Orange.

ORANGE KING—A bright burnt orange.

ORANGE QUEEN—A beautiful Golden Yellow.

PURITY—True White.

SCARLET GEM—A brilliant scarlet.

SEPARATE COLORS; (Pkt. 10c) (3 Pkts. 25c)
 (½ oz. 45c) (oz. \$1.25).

MIXTURES OF PINK SHADES; (Pkt. 10c) (2 Pkts. 25c) (½ oz. 50c) (oz. \$1.50).

LILLIPUT ZINNIAS

A beautiful flower for border work. These Zinnias are Dwarf growers and prolific bloomers.

MIXED COLORS. (Pkt. 10c) (½ oz. 50c).

SCARLET GEM. (Pkt. 10c) (½ oz. 60c).

GOLDEN GEM. (Pkt. 10c) (½ oz. 60c).

PERENNIALS

GAILLARDIA

CLIMBING VINES

- BALLOON VINE.** (Pkt. 10c).
BALSAM APPLE. Thrives in hot locations. (Pkt. 10c).
CARDINAL CLIMBER. Small crimson flowers. (Pkt. 15c).
CYPRESS VINE. Mixed colors. (Pkt. 10c).
HYACINTH BEAN. Purple and White flowers. (Pkt. 10c).
MOONFLOWER. White and Blue. (Pkt. 10c) ($\frac{1}{4}$ oz. 25c).
EVENING GLORY. Fragrant Violet Flowers. (Pkt. 10c).
JAPANESE MORNING GLORY MIXED. (Pkt. 10c) (oz. 25c).
SCARLET RUNNER. Scarlet flowers. (Pkt. 10c).

MEXICAN BLUE MORNING GLORY

This vine produces large sky blue flowers and is one of the most attractive of the Ipomoea type. It is a true morning Glory. Postpaid, (Pkt. 10c) ($\frac{1}{4}$ oz. 50c).

THANKS

I never saw such gorgeous flowers. They were fully two inches across with the brilliant jagged petals reaching to the very center. They are in every way the best Calendulas I have ever had. Susannah Hare.

DOUBLE ENGLISH DAISY—FINE MIXTURE
 (Pkt. 10c) ($\frac{1}{8}$ oz. 40c).

DAISY—SHASTA—ALASKA
 (Pkt. 15c) ($\frac{1}{8}$ oz. 40c).

DELPHINIUM—HYBRIDS MIXED
 (Pkt. 15c) ($\frac{1}{8}$ oz. 35c).

GAILLARDIA—KELWAYS MIXED—FINE
 (Pkt. 15c) ($\frac{1}{8}$ oz. 50c).

LINARIA DALMATICA—NEW

A very striking perennial with clusters of Golden-yellow flowers resembling Antirrhinums. Spikes 18 to 20 inches in length. A very valuable addition to the perennial garden. (Pkt. 10c).

STATICE

An everlasting flower which is being used by all florists. The plants throw a beautiful spray of flowers which may be dried and which make a fine winter bouquet. Once you learn the beauty of this flower you will never be without at least a dozen plants scattered throughout your flower beds. Latifolia, (Pkt. 15c). Caspia, (Pkt. 20c).

GRASS PINKS

A hardy perennial Pink used for borders and cutting and producing a constant bloom of flowers of varied hues. (Pkt. 10c) ($\frac{1}{8}$ oz. 20c).

KUDZU VINE

One of the most rapid growing vines known, often making 40 feet in a season. It may be trimmed frequently for stock food. All kinds of animals eat it readily. The seed is slow in germinating and should be soaked over night. (Pkt. 10c) (oz. 65c).

CANTERBURY BELLS—SINGLE MIXED

(Pkt. 10c) ($\frac{1}{4}$ oz. 20c).

AQUILEGIA—COLUMBINE—LONG SPURRED HYBRIDS
 (Pkt. 20c) ($\frac{1}{8}$ oz. 65c).

FEEDING A FLOWER BED

One can buy the best flower seed obtainable and not be able to grow pretty flowers. Three things are essential in getting a flower plant to bloom beautifully: It must have water, it must have air and it must have food. Certain flowers need more water than others, especially the Zinnia. Cultivation should be practiced as often as possible. Plant food is best given to a plant during the months of December and February. An easy way to fertilize is to put manure in small piles over the bed in December and February. The manure must not be dug into the ground until the Hardy Annuals have bloomed. In April or May this manure can be dug into the ground and the bed planted in Summer Flowers. By repeating this process from year to year the fertility of your bed is maintained and two groups of flowers can be grown successfully. Fertilization is very important. Rich beds produce rich colors and fine foliage. We have seen thousands of unattractive flower beds due to the fact that there was no plant food in the soil. If it is impossible for you to purchase manure we suggest, as the next best thing, some well known grade of commercial fertilizer.

FLOWERING BULBS

DAHLIAS

Dahlias may be grown successfully in the Southwest. We find from experience that late planting is more satisfactory than early planting. If the bulbs are planted during the latter part of May and the month of June they will bloom all Fall and up until frost.

AMUN RA (DECORATIVE)

The flowers are of immense size with outer petals of Copper and Orange tones deepening in the center. Long stemmed. (85c each).

INSULINDE

The flowers are very large—6 to 7 inches in diameter, combining orange, buff, and golden orange into a scintillating mass of color. The reverse of the petals is shaded golden rose. (85c each).

JERSEY BEAUTY (DECORATIVE)

We consider this one of the finest Dahlias in the world. The flowers are large, perfectly formed and of a lovely pure pink color. Stems are long and straight. A prolific bloomer. (90c each).

MILLIONAIRE (DECORATIVE)

An extremely large Dahlia. Color a delicate lavender pink. (75c each).

MRS. I DE VER WARNER

A magnificent Dahlia with very large flowers of a deep Mauve Pink. Long stemmed and a free bloomer. (75c each).

PRIDE OF CALIFORNIA (DECORATIVE)

Crimson Red with dark full centers. Large flowers on long straight stems. (65c each).

POLAR BEAR

An extremely large white Dahlia. The finest white we know of. (60c each)

(ALL PRICES ARE POSTPAID)

QUEEN'S WREATH

A beautiful perennial with a spray of pink flowers. The vines die in the winter and come up again from the roots in the Spring. Should be planted in a warm sunny location. The roots should be protected with straw or rotted leaves during the winter. Medium size roots (35c each) (3 for \$1.00). Large size roots (50c each).

GLADIOLI

We can supply the following colors: LAVENDER PINK, SALMON PINK, SCARLET, WHITE, YELLOW and ROSE PINK. Postpaid. (Dozen 75c) (100 \$5.50) Not prepaid (Dozen 60c) (100 \$4.85)

TUBEROSES

MEXICAN EVER BLOOMING

This type of Tube Rose is best suited for the Southwest. Easily grown and an excellent cut flower. Postpaid. (7c each) (½ dozen 40c) (dozen 75c).

CANNAS

KING HUMBERT

This is one of the grandest Cannas ever offered. The flowers form in immense heads of orchid-like, velvety orange-scarlet, rose tinted and margined at the base; a combination of leaf and blossom incomparably beautiful. Postpaid, (15c each) (½ dozen 75c).

THE PRESIDENT

A beautiful Red Canna with immense flowers. Postpaid, (15c each) (½ dozen 75c).

MRS. ALFRED CONARD

The grandest Salmon Pink Canna in existence. Postpaid, (20c each) (½ dozen \$1.00).

ROSEA

A large soft rose pink Canna of gigantic size. Prolific bloomer. Postpaid, (20c each) (½ dozen \$1.00).

LAWN GRASSES

PALM'S LAWN MIXTURE

Many people in the Southwest have found our mixture very satisfactory in every way. Postpaid, (lb. 85c) (5 lbs. \$4.00).

BERMUDA

This Grass is without question the best lawn grass for the Southwest. Postpaid, (lb. 85c) (5 lbs. \$4.00).

KENTUCKY BLUE GRASS

A splendid grass to plant under trees and in cool shady locations. Extra fancy grade. Postpaid, (lb. \$1.00) (5 lbs. \$1.00).

DUTCH CLOVER

This grass is generally planted with Blue Grass. Postpaid, (lb. \$1.00) (5 lbs. \$4.75).

FIELD SEEDS

(MEXICO SHIPMENTS—USE NOT PREPAID PRICES)

FORAGE SEEDS

It is impossible, when our catalog goes to press, to quote quantity prices on Field Seeds. We suggest that when you wish to plant Field Seeds you write us for our best prices. **ALL OF OUR FIELD SEEDS ARE THOROUGHLY CLEANED AND OF GOOD GERMINATION.**

RED TOP

Red Top grows a finer stem than either Amber or Orange, and is a better drought resister. Postpaid, (lb. 15c) (2 lbs. 25c). Not prepaid, (10 lbs. 60c). Ask for prices on larger quantities.

HIGARI

This grain is a cross between White Kaffir and Feterita. Because it does not shatter when ripe it has become a very popular Field Seed. Postpaid, (lb. 20c) (2 lbs. 35c). Not prepaid, (5 lbs. 65c).

KAFFIR CORN

Kaffir Corn grows from four to six feet tall. The heads range in length from six to twelve inches. Postpaid, (lb. 20c) (2 lbs. 35c). Not prepaid, (5 lbs. 65c).

FETERITA

A field grain similar to Kaffir Corn. Matures a month earlier than Kaffir Corn. Postpaid, (lb. 20c). Not prepaid, (lb. 15c) (5 lbs. 65c).

DWARF MILO MAIZE

Popular Field Grain because of the heavy yield it makes. Stands drought better than any of the other Sorghums. Postpaid, (lb. 20c) (2 lbs. 35c). Not prepaid, (5 lbs. 65c).

TEXAS RED OATS

This variety of Oats does better in the Southwest than Northern White Oats. We take particular pains to buy Red Oats free from Johnson Grass. Write for prices.

RYE

A splendid Field Seed for Fall and early Spring planting. Especially valuable for the cooler sections of the Southwest. Write for prices.

BARLEY

This is the finest winter pasture one can plant in the Rio Grande Valley. It is an excellent grain to plant with Alfalfa in the Spring of the year. Barley, if ground and mixed with Corn Meal will fatten a Turkey almost over night. Write for prices.

ALFALFA — THE BEST FORAGE CROP

There are two varieties of Alfalfa commercially planted in the Southwest. Some people prefer Hairy Peruvian, others are equally partial to the Common or Chilian. The Hairy Peruvian yields a larger tonage than the Common or Chilian Type. Chilian Alfalfa, however, produces a finer stemmed hay. Alfalfa will be very high next Spring and therefore we cannot quote any prices at this time. If you will write us when in need of Alfalfa Seed we will answer you the same day your letter reaches us. Postpaid, (lb. 50c) (2 lbs. 95c). Not prepaid, (lb. 40c) (5 lbs. \$1.85).

SELECTED SEED CORN

MEXICAN JUNE

There has been a great many varieties of seed corn tried out in the irrigated section of the Southwest. Mexican June, however, is the best corn one can plant. Our Mexican June Seed Corn is raised in the Mesilla Valley from selected ears. The selected ears are afterwards butted and tipped and the corn is tested for germination before being offered to the public. We can only quote Mexican Seed Corn f. o. b., El Paso. (lb. 20c) (5 lbs. 75c) (10 lbs. \$1.25) (50 lbs. \$4.00) (100 lbs. \$7.50),

REID'S YELLOW DENT

We buy our Reid's Yellow Dent from the North so that it will mature quicker in our section. Prices f. o. b., El Paso. (lb. 20c) (5 lbs. 75c) (10 lbs. \$1.25) (50 lbs. \$4.00) (100 lbs. \$7.50).

HICKORY KING

A white field corn with a very large grain and a very small cob. The ears average 7 to 9 inches in length. Hickory King also makes a good roasting ear corn. (lb. 20c) (5 lbs. 75c) (10 lbs. \$1.25) (50 lbs. \$4.00) (100 lbs. \$7.50),

FIELD SEEDS

BIG GERMAN MILLET

The quickest growing Millet for the Southwest. Very valuable for planting in July and August. Write for prices.

SUDAN GRASS

This grass should have been called the Million Dollar Grass. It seems to grow fine on all kinds of soil. The stem is small and very much liked by all kinds of Stock. Postpaid, (lb. 25c) (2 lbs. 40c). Not prepaid, (10 lbs. 75c).

WHITE SWEET CLOVER

Wonderful Field Seed. Sweet Clover can be planted on low wet lands and will yield nicely. The hay is a fine milk producer, a favorite crop for dairymen. Postpaid, (lb. 35c) (2 lbs. 65c). Not prepaid, (5 lbs. \$1.25).

EARLY AMBER CANE

This Cane will yield two or three cuttings a year, stooling out thicker each time it is cut. Postpaid, (lb. 15c) (2 lbs. 25c). Not Prepaid, (10 lbs. 60c). Ask for prices on larger quantities.

HAIRY WINTER VETCH

Sow in Fall or Spring. Plant 50 to 60 pounds of Vetch to an acre. Use oats as a nurse crop. Postpaid, (lb. 40c) (10 lbs. \$2.50) (20 lbs. \$4.75).

SPECIAL PAMPHLETS

All of the items listed below are omitted from our catalog because we have special pamphlets to mail you on these subjects. If you will write us we will be delighted to send you any of these pamphlets.

BABY CHICK GRIT

BABY CHICK CHARCOAL

BARNES WORM EMULSION. (This is one of the finest Feeds for Baby Chicks known. Mix with the drinking water.)

Write for quotations on the above articles.

EARLY FORTUNE CUCUMBER

An improved type of the white spine variety, early, very productive, and disease resistant. The fruits average about 9 inches long and are slightly tapering. Flesh is white, very firm and crisp. The color is a rich dark green. Does not fade when shipped long distances. On account of its earliness, handsome shape, medium size and fine color, it has become one of the most popular varieties with commercial truckers. The vines are very prolific and will mature a crop in about 50 days. The stock that we offer is specially grown for us. **Packet 10c—1 ounce 15c— $\frac{1}{4}$ pound 40c—1 pound \$1.25—5 pounds \$5.50, postpaid. Not prepaid, 10 pound lots and over \$1.10 per pound; 20 pound lots and over, \$1.00 per pound.**

PURPLE TOP WHITE

GLOBE TURNIP

This is a very popular Turnip with the commercial grower. It is a large globular shaped Turnip, the flesh being pure white. Our strain is of excellent quality and splendid flavor. We buy this seed in America and we have never had a complaint from any of the commercial growers on the quality of our strain. **Packet 5c—ounce 10c— $\frac{1}{4}$ pound 25c—1 pound 75c—5 pounds \$3.00, postpaid. Not prepaid, 10 pound lots and over 50c per pound—20 pound lots and over, 45c per pound.**

Turnip—P. T. White Globe
Watermelon—Stone Mountain
Watermelon—Klondyke

MARGLOBE TOMATO

Very few new introductions gain world-wide popularity in a short time. The Marglobe Tomato, however, seems to be an exception to the rule. This Tomato was developed by the United States Department of Agriculture. In every section of the country where it has been given a test it seems to have won universal favor. No matter where you go you find everybody partial to the Marglobe. It is pure scarlet, globe shaped Tomato, having the fine characteristics of the Globe. In our section it doesn't produce as many cat-faces as other types and it seems to withstand the wilt in many sections. Packet 10c—½ oz. 25c—1 ounce 40c—¼ pound \$1.50—1 pound \$4.50—5 pounds \$21.50, post-paid. Not prepaid, 5 pound lots and over \$4.15 per pound—10 pound lots and over \$4.00 per pound.
